PREPARED BY

Brand Method

EDITION

V1.0 Wireframe draft

ISSUED

August 2026

Introduction

This is the Vit’s Brand Book. It defines who we are, how we speak and how the identity is applied, in the shortest form that still governs the work.

01

Read Section 01 first

Every visual rule that follows carries the story in Brand. A layout that looks right but says the wrong thing has still failed.

02

Work from Section 03

Visual Identity is the working reference. Mark, colour and type rules are specified with values you can copy straight into a file.

03

Check 3.6 before you ship

The Logo Don’ts page is short on purpose. If your artwork appears there, change it.

04

This edition is a draft

Pages marked with a dashed frame are placeholders. Colour and type are proposed, pending match against the held brand assets.

01

Brand

Where Vit's came from, what it stands for
and the promise every pack has to keep.
Read this before touching anything visual.

- 1.1 Company Introduction
- 1.2 Positioning and Script
- 1.3 Vision and Mission
- 1.4 Values and Culture

Company Introduction

One of Malaysia’s pioneer noodle manufacturers. Fifty years of making the everyday bowl, and exporting it.

Vit’s began in 1975 as a passion for making noodles. From a small kitchen in Selayang it has grown into a leading Malaysian halal certified noodle brand, exporting to more than thirty countries.

The name comes from the Mandarin **Wei Yi**, meaning *the only one*. The phoenix that carries it stands for power, renewal and longevity. Vit’s intends to be Malaysia’s one and only noodle expert of choice.

LEGAL ENTITY	Vit Makanan (Kuala Lumpur) Sdn Bhd (25143-H)
FOUNDED	1975, noodle making begins in Selayang
HEAD OFFICE AND PLANT	Rawang, Selangor, Malaysia
FACILITY	105,000 sq ft, Taman Industri Integrasi Rawang
MARKETS	Malaysia nationwide, plus 30+ export countries
CERTIFICATION	HALAL Malaysia, FSSC 22000, ISO 22000, HACCP, GMP, SMETA
CATEGORIES	Instant noodles, fresh and air dried noodles, OEM and private label

FIVE CHAPTERS

1975

A kitchen in Selayang

A passion for making noodles becomes a business.

1980

Halal by choice

Certification sought and obtained, so every Malaysian could eat it.

GROWTH

Rawang, 105,000 sq ft

The plant moves to meet rising international demand.

STANDARD

HACCP, GMP, FSSC 22000

Food safety anchored to global benchmarks at every stage.

TODAY

30+ countries

Asia, the Middle East, Europe and beyond.

Positioning and Script

One statement everyone agrees on, and the thirty seconds you say out loud when someone asks what Vit’s is.

POSITIONING STATEMENT

For every household that wants a good bowl without a second thought, Vit’s is Malaysia’s noodle expert: halal since 1980, made in Rawang to global food safety standard, and trusted in more than thirty countries.

THE THIRTY SECOND SCRIPT

“Vit’s has been making noodles in Malaysia since 1975. We started in a small kitchen in Selayang. Today we run a 105,000 square foot plant in Rawang and ship to more than thirty countries.

We took halal certification in 1980, before anyone asked us to, because a bowl of noodles should be something every Malaysian can share. Everything we make is built to FSSC 22000, HACCP and GMP standard.

We make our own brands, and we make other people’s too: OEM and private label, from air dried to fresh noodle. If it is a noodle, we know how to make it well.”

WHO IT IS FOR

Malaysian households first. Then distributors, retailers and OEM partners who need a manufacturer that will not embarrass them.

WHAT WE MAKE

Instant, fresh and air dried noodles under Vit’s, and under partner brands through OEM and private label.

WHY IT MATTERS

Halal, safe and consistent is not a claim here. It is audited: FSSC 22000, HACCP, GMP and SMETA.

Vision and Mission

The vision is old and it has not moved.
The mission is how it gets kept.

VISION

Shared prosperity through something simple: a bowl of noodles welcome in every Malaysian home, regardless of race or religion.

MISSION

01

Make it halal, always

Certification since 1980 is not a market tactic. It is the condition of being on every Malaysian table, whatever the faith of the household.

02

Hold the standard

FSSC 22000 and ISO 22000 food safety management, critical control monitoring at every production stage, facilities aligned to Ministry of Health requirements.

03

Carry Malaysia outward

Export the authentic taste of Malaysia, from Penang white curry to asam laksa and Hokkien mee, out to Asia, the Middle East, Europe and beyond.

04

Make it for others too

OEM and private label built to the same standard as our own brands, for partners worldwide.

Values and Culture

Five values. Each one is a decision the company has actually had to make.

Wei Yi, the only one

The name is a standard, not a boast. If a competitor can do it the same way, we have not finished the job.

VALUE 01

Halal by conviction

We sought certification in 1980 because it was right, not because a buyer required it. That order of events is the value.

VALUE 02

Rise again

The phoenix is not decoration. Fifty years means recipes retired, lines rebuilt and markets lost and won back.

VALUE 03

Everyone’s table

A bowl that works for every household in a multiracial country. No formulation that quietly excludes someone.

VALUE 04

Made to standard

Audited, not asserted. FSSC 22000, HACCP, GMP and SMETA, with the paperwork to show any buyer who asks.

VALUE 05

02

Verbal Identity

What Vit’s says, in what order, and the tone it says it in.
Four pillars and one voice, used the same way by everyone.

- 2.1 Messaging Pillars
- 2.2 Voice and Character

Messaging Pillars

Four claims Vit’s is entitled to make. Every one carries proof underneath it. If the proof is missing, the claim does not go out.

01

Fifty years of it

Vit’s has made noodles since 1975. Not a heritage story bolted on afterwards. The same business, still making the same category.

PROOF

- Founded 1975, Selayang
- One of Malaysia’s pioneer noodle manufacturers
- 50+ years in the category

02

Halal since 1980

Certification was taken early and deliberately, so that a bowl of Vit’s could be shared by any Malaysian household.

PROOF

- HALAL Malaysia certified
- Certificate serial 1 001-01/2005
- Pure, hygienic, permissible

03

Made to global standard

Food safety management anchored on ISO 22000 and FSSC 22000, with critical control monitoring at every production stage.

PROOF

- FSSC 22000 & ISO 22000
- HACCP and GMP
- SMETA audited

04

From Rawang, outward

A 105,000 sq ft plant supplying Malaysia nationwide and more than thirty export markets, under our brands and our partners’.

PROOF

- 30+ export countries
- 105,000 sq ft facility
- OEM and private label

Voice and Character

Four attributes, and the rewrites that show what each one means in practice.

ATTRIBUTES

Plain

Say the thing. A noodle brand that talks like a consultancy has lost the room.

Warm, not sentimental

This is food for ordinary evenings. Affection is fine; nostalgia bait is not.

Specific

‘FSSC 22000’ beats ‘world class’. Numbers and names, every time.

Unhurried

Fifty years does not need to shout. Confidence reads as calm.

SAY IT THIS WAY

✕ Vit’s is a leading provider of premium noodle solutions.	✓ Vit’s makes noodles. We have since 1975.
✕ Our world-class facility upholds the highest standards of excellence.	✓ Our Rawang plant runs to FSSC 22000, HACCP and GMP.
✕ Halal certified for your peace of mind!	✓ Halal certified since 1980, so it can go on any Malaysian table.
✕ An explosion of authentic Malaysian flavour in every bite!!	✓ Penang white curry mee, the way it is actually eaten in Penang.

03

Visual Identity

The working section. Mark, clearspace, palette and type, specified with values you can copy straight into artwork.

- 3.1 Logo Overview
- 3.2 Logo Concept
- 3.3 Logo Formats
- 3.4 Clearspace and Size
- 3.5 Backgrounds
- 3.6 Logo Don'ts
- 3.7 Colour Palette
- 3.8 Colour in Use
- 3.9 Typography
- 3.10 Type Scale
- 3.11 Language Variants

Logo Overview

One mark, used whole. The badge carries the name inside it, so there is no separate symbol and no separate wordmark to place.

PRIMARY MARK

ON STEAM

ON INK

ON VIT'S RED

MASTER FILES The badge here is redrawn from the file Vit's supplied. Treat it as a working stand in: request the vector master from Brand Governance before any artwork goes to separation. Never trace the mark from a pack shot and never rebuild it by setting the name inside a drawn shape.

Logo Concept

Four parts, and one open question about what the mark is meant to say.

- A The dome**
A broad, even arch. It reads as the near side of a full bowl and it gives the mark its stability on shelf.
- B The scalloped base**
Two dropped points with a rise between them. This is the line that makes the badge recognisable at a glance, and the part most often lost when the mark is redrawn.
- C The keyline**
A rule inset inside the edge, holding the badge off whatever sits behind it. It closes up below 46px and is dropped there, never thinned.
- D The wordmark**
Reversed out, optically centred, sitting slightly above the middle so the scalloped base does not crowd it.

OPEN QUESTION

Vit's own storytelling rests on the phoenix, from **Wei Yi**, the only one. The mark does not depict it. Either the story reaches the mark or the mark stays a pure name badge and the phoenix stays a story. That is the client's call, and it is the one decision in this book that changes Section 03 wholesale.

Logo Formats

Six approved constructions. Pick by the ground you are on and the size you have, never by taste.

01 PRIMARY, WITH TM
The default on any first or standalone appearance.

02 PRIMARY, NO TM
Where the mark repeats on one surface, and at small sizes.

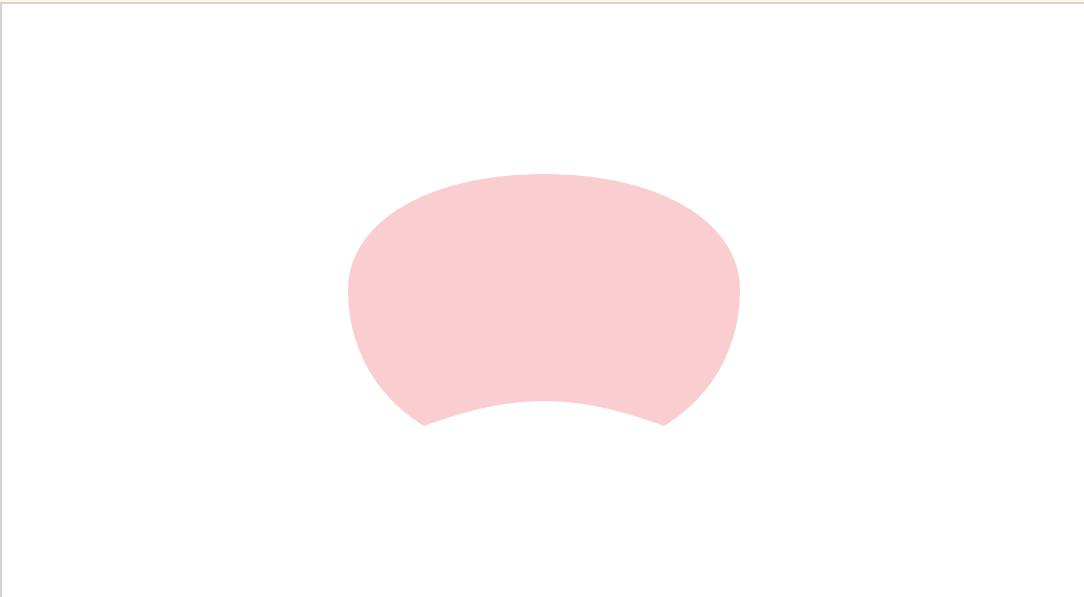

03 KNOCKOUT
White badge, red wordmark. On the red, and over photography.

04 ONE COLOUR, INK
Single plate print, stamps, engraving, faxable documents.

05 ONE COLOUR, WHITE
Embossing, debossing and dark photographic grounds.

06 SILHOUETTE
Watermarks and pattern only. This is not a logo and never stands in for one.

Clearspace and Size

Clearspace is measured in **X**, one quarter of the badge height. Nothing enters the field: not type, not a rule, not the edge of the sheet.

CLEARSPACE = 1X ON EVERY SIDE

MINIMUM SIZES	
PRINT, FULL MARK	22 mm wide
PRINT, MINIMUM	14 mm wide, keyline dropped
DIGITAL, FULL MARK	110 px wide
DIGITAL, MINIMUM	46 px wide, keyline dropped
EMBOSSING AND DEBOSSING	18 mm wide
APP ICON AND FAVICON	Not this mark. See below.

WHERE THE KEYLINE GIVES OUT

At 110px the keyline is clean. At 46px it has closed to a hairline and is dropped. At 30px the wordmark fills in and the mark stops working at all.

OPEN ITEM A wide badge cannot carry a square app icon or a 32px favicon. A dedicated icon has to be drawn, and it is on the list on page 5.1. Until it exists, use the red tile shown on 4.4.

Backgrounds

Four approved grounds, one conditional, one refused. When in doubt put the mark on Steam.

STEAM
Default light ground for documents and decks.

PAPER
Packaging faces, stationery, anywhere print white is available.

SOY INK
Covers, dividers and dark grounds. The red holds against the black.

VIT'S RED
Knockout only. The red badge on red is not a mark.

GOLDEN WHEAT
Conditional. Flavour bands only, and never with the ink variant.

BROTH
Not approved. The badge loses its edge against the mid tone.

Logo Don'ts

Eight things that break the mark. If your artwork appears on this page, change it before it ships.

01 Do not recolour the badge

02 Do not stretch or distort

03 Do not rotate

04 Do not add effects

05 Do not reset the wordmark

06 Do not thin or drop the keyline above 46px

07 Do not use the silhouette as the logo

08 Do not place on a busy ground

Colour Palette

Five values carry the system. Red is the field, gold is the accent, and gold is rationed.

Vit's Red #EC1F28 RGB 236, 31, 40 CMYK 0, 87, 83, 7 PANTONE TO BE MATCHED The signature. Packaging field, the mark, and one call to action per surface.	Golden Wheat #F0A81E RGB 240, 168, 30 CMYK 0, 30, 88, 6 PANTONE TO BE MATCHED Wheat, heat and the crest. Flavour banding and the single warm accent.	Soy Ink #191410 RGB 25, 20, 16 CMYK 0, 20, 36, 90 PANTONE TO BE MATCHED Headlines, body copy and dark grounds. A warm black, never a neutral one.	Steam #FAF4E9 RGB 250, 244, 233 CMYK 0, 2, 7, 2 PANTONE TO BE MATCHED The default light ground. An off white carrying a trace of the gold.	Broth #8A7360 RGB 138, 115, 96 CMYK 0, 17, 30, 46 PANTONE TO BE MATCHED Quiet panels and photographic grounds. Large type only. See 3.8.
--	---	--	---	---

DEEP RED #C4141C

A darkened tint of the signature, for small type and rules on light grounds where the signature red will not carry. Never a fill.

SPOT COLOUR

CMYK breakdowns above are process conversions. Pantone references are to be matched against a printed pack under D50 before this edition is signed off. Food packaging red shifts badly across substrates, and the flexo result on film will not match the litho result on carton without a spot.

Colour in Use

Proportion first, then the pairings that are cleared to carry type.

CLEARED PAIRINGS • WCAG 2.1 CONTRAST, MEASURED

INK ON PAPER 18.3 : 1 AAA	INK ON STEAM 16.7 : 1 AAA	STEAM ON INK 16.7 : 1 AAA	INK ON GOLD 9.0 : 1 AAA
PAPER ON RED 4.4 : 1 AA 18PX+	RED ON STEAM 5.5 : 1 AA	BROTH ON STEAM 4.1 : 1 24PX+ ONLY	GOLD ON STEAM 1.9 : 1 REFUSED

TWO STANDING RULES Golden Wheat reaches 1.9 : 1 on Steam, so it carries shapes, rules and bands, never body copy on a light ground. On Ink it is cleared at 9.0 : 1 and may set type freely. White on Vit's Red reaches 4.4 : 1, which clears large text only, so nothing under 18px sits on the red. Small red type on a light ground uses Deep Red #C4141C at 5.5 : 1.

Typography

Three brand faces and one fallback. Archivo carries the personality; Figtree carries the reading.

Archivo

DISPLAY • 800 EXPANDED, 700

Aa Bb Mi Segera 1975

Headlines, pack front of face and any type over 30px. Set expanded at 112 to 118 per cent width. It also stands in for the wordmark inside the mark, which is a custom drawing and not this typeface.

Figtree

TEXT • 400, 500, 600

Aa Bb Mi Segera 1975

Body copy, decks, pack back of face, long form. Warm humanist proportions that stay legible at 6pt on film.

JetBrains Mono

DATA • 500, 700

Aa Bb Mi Segera 1975

Labels, batch codes, weights, nutritional panels, specifications. Anything that must line up in a column.

Arial

FALLBACK • REGULAR, BOLD

Aa Bb Mi Segera 1975

Email, Office documents and any system without the brand faces licensed. Never used in artwork.

LICENSING Archivo, Figtree and JetBrains Mono are all offered under the SIL Open Font Licence, so packaging artwork, web embedding and partner branding carry no per seat cost. Confirm the licence text ships with any file handed to a contract packer.

Type Scale

Eight steps. Everything in this book is set from them. Nothing is sized by eye.

STEP	FACE	SIZE / LEADING	TRACKING
Display	Archivo 800 Exp	132 / 124	-3.2%
Page title	Archivo 800 Exp	60 / 61	-1.8%

Language Variants

Vit’s sells into a multiracial home market and thirty export markets.
The mark never translates; the copy around it always does.

English

PRIMARY

Halal instant noodles, made in Malaysia since 1975.

Front of pack, export, corporate and digital.

Bahasa Malaysia

PRIMARY

Mi segera halal, dibuat di Malaysia sejak 1975.

Statutory on Malaysian retail packs, equal weight with English.

中文 Chinese

SECONDARY

清真方便面 · 唯一

Malaysian retail, Singapore, Greater China export.

العربية Arabic

SECONDARY

نودلز سريعة التحضير · حلال

Gulf and Middle East export markets.

TYPEFACES

Chinese sets in Noto Sans SC, Arabic in Noto Naskh Arabic. Both are matched to Figtree at optical size, not at nominal point size.

REGULATORY

Label language, halal marking and ingredient declaration follow the destination market’s own rules. This page governs typography only, never legal compliance.

04

Application

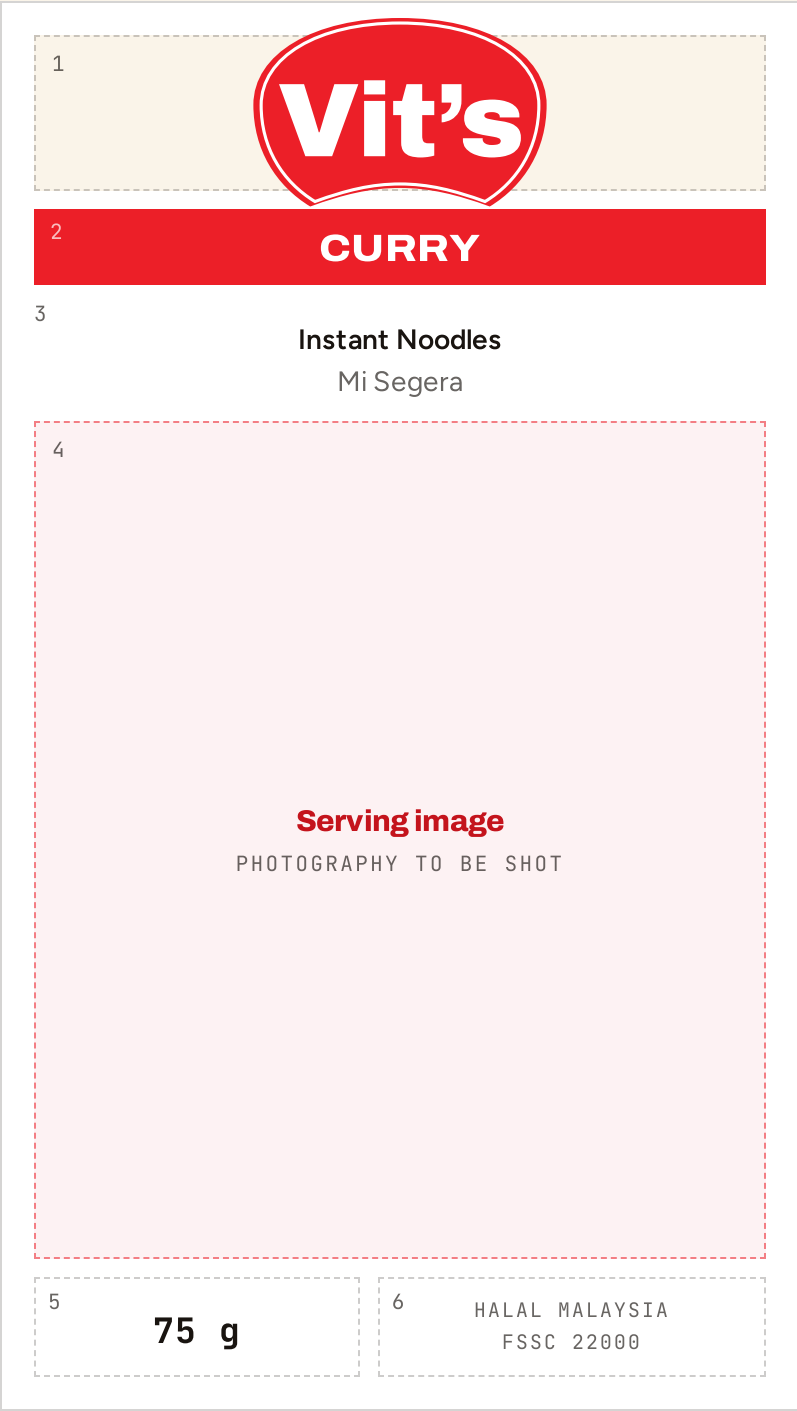

How the system lands on the things Vit’s actually makes and sends out. Every page in this section is a wireframe: structure fixed, art direction still open.

- 4.1 Packaging System
- 4.2 Stationery
- 4.3 Retail and Shelf
- 4.4 Digital and Social

Packaging System

The front of pack is a fixed six zone grid. Flavour changes the band colour and nothing else.

FRONT OF PACK, WIREFRAME

ZONES

- 1 Brand block**
Stacked lockup, centred, never smaller than 28 mm wide.
- 2 Flavour band**
Full bleed colour band. One flavour, one colour, held in the flavour register.
- 3 Descriptor**
Figtree 600. Product name in English and Bahasa Malaysia, equal weight.
- 4 Serving image**
Photography window. Bowl three quarter, steam visible, no props competing.
- 5 Net weight**
JetBrains Mono 700. Bottom left, always in grams.
- 6 Halal and certification**
HALAL Malaysia lockup plus plant code. Never resized, never recoloured.

FLAVOUR REGISTER, DRAFT

	Chicken #C8961E
	Curry #EC1F28
	Tom Yam #E2571F
	Asam Laksa #8E2A4E
	Vegetarian #3F7A3A
	Aglio Olio #1F5B7A

DRAFT Flavour colours are proposed. Each must be matched to the current pack before it enters the register, and no two flavours may sit within ΔE 5 of each other on shelf.

Stationery

Letterhead, card and compliment slip. The mark sits top left on everything; the red rule is the only ornament.

LETTERHEAD, A4 PORTRAIT

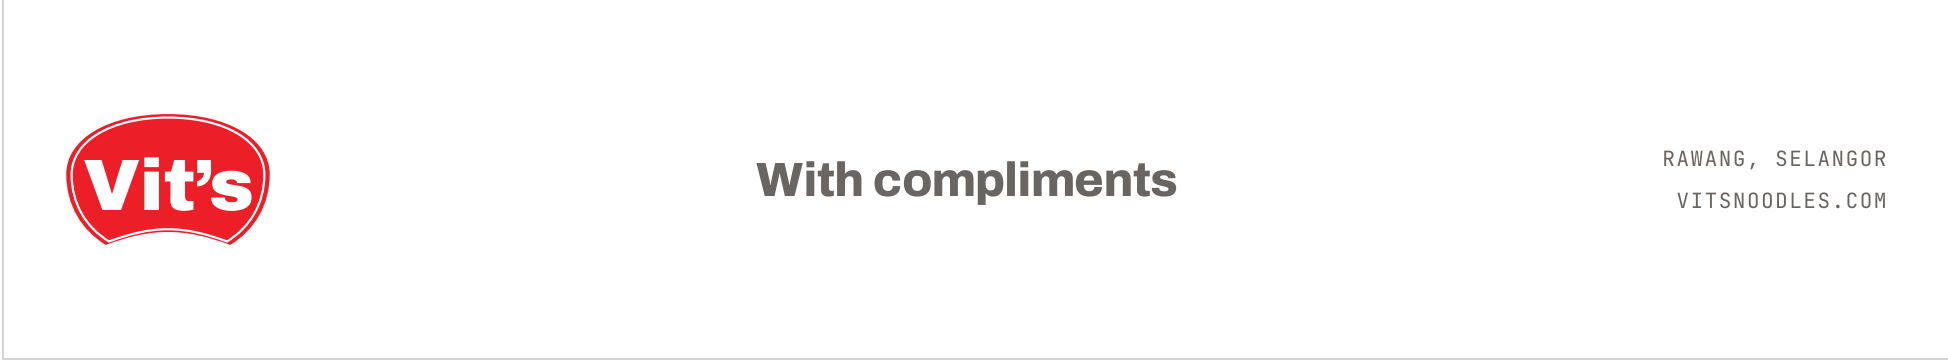

BUSINESS CARD, FACE

BUSINESS CARD, REVERSE

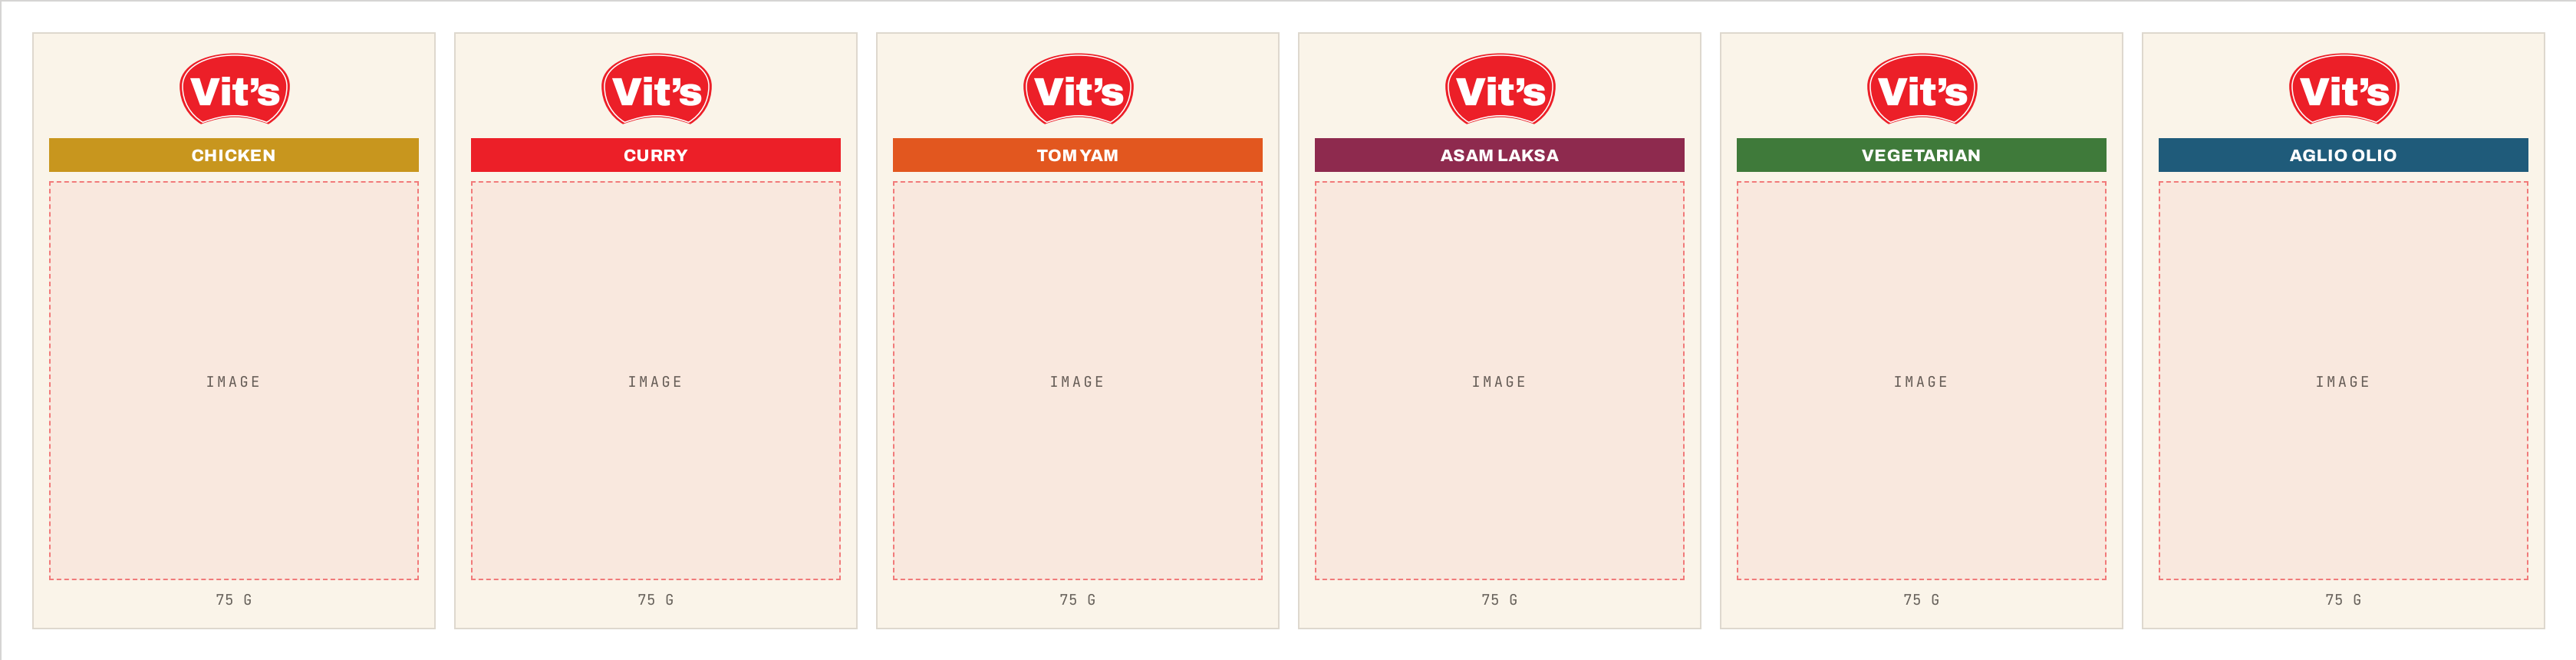

COMPLIMENT SLIP, DL

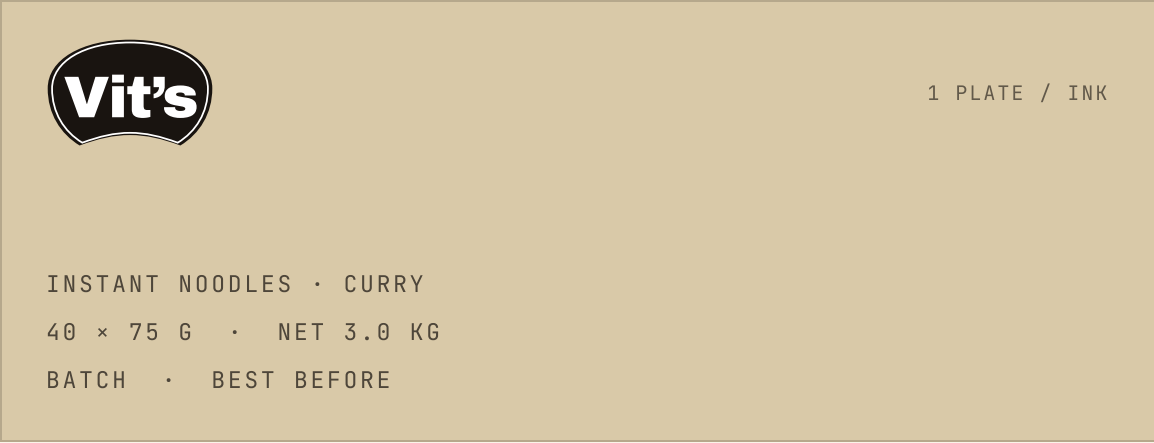

Retail and Shelf

Vit's is bought in a second, in a crowded aisle. The block has to read as one brand before any single pack reads as a flavour.

MASTER FILES

Vector artwork, colour profiles and the licensed font files are released by Brand Governance on request.

STATUS OF THIS EDITION

V1.0 is a **wireframe draft**. Structure, hierarchy and copy are proposed for review. The mark, the palette and the typeface selection are a design proposal. The palette red is sampled from the supplied logo file, which is a single colour red mark; the drawn form and the typefaces are not yet reconciled against it, and no file in this edition is a production master.

BEFORE V2.0 IS SIGNED OFF

- 01 Redraw the mark against the held asset. Vit's Red #EC1F28 is taken from it; the drawn form here is still a proposal.
- 02 Match Pantone references on a printed pack under D50.
- 03 Confirm the wordmark typeface, or commission the drawing.
- 04 Lock the flavour register against current retail range.
- 05 Commission the photography the wireframes leave open.

Vit's, the phoenix symbol and the Vit's wordmark are trade marks of Vit Makanan (Kuala Lumpur) Sdn Bhd. This document is confidential and issued for internal and authorised partner use only. Do not redistribute.

The only one. Since 1975.

Vit Makanan (Kuala Lumpur) Sdn Bhd. Rawang, Selangor,
Malaysia. Halal certified since 1980. Exporting to more than
thirty countries.
