How to use this book

PURPOSE · WHAT THIS BOOK GOVERNS

The brand identity manual for The Imperial Culture:
who we are, what we stand for, and how the brand
is presented consistently at every touchpoint.

Think of it as the single source of truth. When a question about the brand comes up, the answer lives here. Where a page conflicts with a newer approved decision, the record wins and this book is revised. The book is never overruled silently.

THE RULES OF USE

- ✔ Nothing ships off-system: colour, type, spacing and grid come from Visual identity (2.3), never reinvented per artwork
- ✔ The wordmark is never redrawn, recoloured or rebuilt: assets come from Documents (4.1)
- ✔ Confidential: internal teams and authorised partners only, see Terms (1.0) and Legal (4.2)
- ✔ Nothing public without sign-off: the approval path in Governance (4.3) closes every release

READING THIS BOOK · THE SYSTEM IS MODULAR

START WITH STRATEGY

Part 1 to 2.1 explain the thinking. Read them once so every later decision stays anchored.

LEARN THE IDENTITY

Parts 2.2 and 2.3 are the working reference: voice, logo, colour, type and elements.

APPLY WITH CONFIDENCE

Part 3 shows the brand in the real world. Match new work to the closest example.

PROTECT AND APPROVE

Part 4 governs files, legal use, collaboration and sign-off before anything ships.

Who it is for. Internal teams, design and agency partners, printers, manufacturers, retailers and collaborators.

What it protects. A consistent, premium, trusted brand experience in every expression.

TERMS & CONDITIONS

OWNERSHIP

The name, marks, colour system, typography and visual signatures are the exclusive property of The Imperial Culture. Nothing may be copied, altered or extended without written approval.

APPROVED USE

Assets may be used only in the forms and colours defined in this book. Any new application not covered here is reviewed by the brand custodian before release.

PARTNERS

Third parties are granted limited rights for approved work only, and must follow this guide in full. Files come from the master library, versioned, never forwarded copies.

CONFIDENTIALITY

Internal and authorised partner use only. This document, its creatives and its commercial detail are not for public distribution in any form.

In short: creativity is welcome; consistency is not negotiable. When an application is not covered here, ask before you act.

FIVE LAYERS · ONE SYSTEM
EACH LAYER SERVES THE ONE ABOVE

01	Foundation STORY, POSITIONING, VISION, VALUES, PHILOSOPHY	Why the brand exists. Everything else defends it.	PART 2.1
02	Verbal identity VOICE, TONE, MESSAGING TERRITORIES	How the brand sounds, in every word we publish.	PART 2.2
03	Visual identity LOGO, COLOUR, TYPE, ELEMENTS, IMAGERY, LAYOUT	How the brand looks, and the rules that keep it recognisable.	PART 2.3

05	Governance FILES, LEGAL, PROTECTION, APPROVALS	What keeps the system intact as the brand grows.	PART 4

THE OPERATING SYSTEM

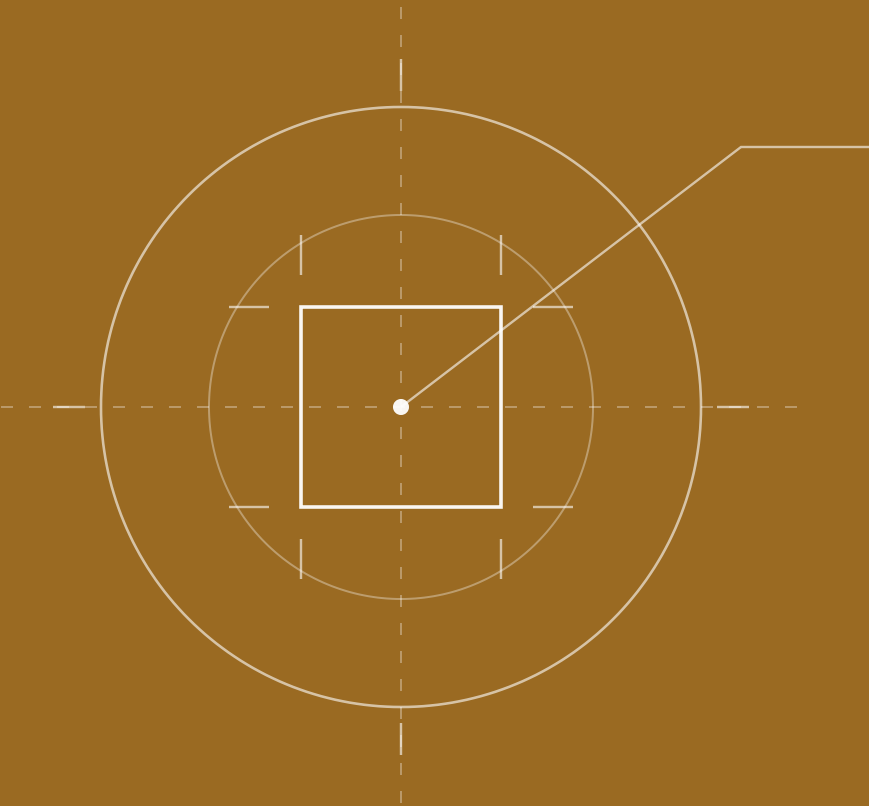

A brand book is not a style sheet. It is an operating system: five layers that each depend on the one before it, so a decision made at the top stays true at the bottom.

Read down the stack when you are learning the brand. Read up the stack when you are checking a piece of work: if an execution cannot be traced back to the foundation, it is off-brand, however good it looks.

THE ONE LINE

Culture takes time. We give it time, and what comes back is a drink that is alive, bright and good for you.

Company introduction

LIVING CULTURE KOMBUCHA
MODERN WELLNESS, REFINED

A living culture, brewed with intention

A modern wellness kombucha: a living, fermented tea crafted for people who want to feel good without compromise.

The Imperial Culture makes small-batch, living culture kombucha, with real fermentation and real function. We serve modern, health-aware people who value quality and ritual, and we exist to make wellness feel like a pleasure, not a chore.

FIG. 2.1A

Our story

THE NAME, THE DOUBLE MEANING
CULTURE, TWICE OVER

TIME IS THE INGREDIENT

FIG. 2.1B

A brand born from patience

The Imperial Culture began with a simple idea: the best things are not rushed. Kombucha is proof, a drink that only becomes itself through time, care, and a living culture doing quiet work.

Our name carries the double meaning at the heart of the brand: **culture** as the living ferment that makes the drink alive, and **culture** as taste, refinement, and a way of living well.

“We don’t rush the culture. We let it become, and that patience is what you taste.”

Positioning & brand script

ABOVE FUNCTIONAL, BESIDE RITUAL
CRAFT IS THE COMPETITIVE EDGE

WHERE WE STAND

A premium living culture kombucha for modern people who take wellbeing seriously but refuse to make it joyless.

We sit above the functional, mass-produced end of the category, and beside the everyday rituals of people who care what they put into their bodies. We compete on craft and taste, never on price or volume.

Category	LIVING CULTURE KOMBUCHA
Tier	PREMIUM, CRAFT, SMALL BATCH
Audience	MODERN WELLNESS GENERATION
We are not	MASS, CLINICAL, HYPE-LED

POSITIONING STATEMENT

For the modern wellness generation, **The Imperial Culture** is the living culture kombucha that makes feeling good feel good, because real craft, real culture and real taste should never be a compromise.

BRAND SCRIPT

Culture takes time. We give it time, and what comes back is a drink that’s alive, bright, and good for you. This is your everyday ritual, refined.

The north star for taglines, captions and long-form copy: always warm, confident, unhurried.

Vision & mission

WHERE WE ARE GOING
AND WHAT WE DO EVERY DAY

01 VISION

Our vision

To become the most loved living culture beverage of the modern wellness generation: the brand that proved feeling good and living well were always meant to be the same thing.

02 MISSION

Our mission

To craft honest, living culture kombucha that delivers real function and real pleasure, and to build a brand experience around it that feels calm, premium and genuinely human.

Most loved

NOT THE BIGGEST · THE ONE PEOPLE CHOOSE AGAIN

Honest craft

REAL FERMENTATION · REAL FUNCTION · REAL TASTE

Values & culture

WHAT WE LIVE BY
FIVE VALUES, NO EXCEPTIONS

Five values shape every decision

From how we brew to how we speak. If a piece of work cannot be traced to at least one of these, it is not ours.

01

Honest craft
Real fermentation, real ingredients, no shortcuts.

02

Patience as quality
We let the culture take its time. Good things aren't rushed.

03

Wellbeing, not pressure
We make wellness inviting, never preachy.

04

Quiet confidence
We let quality and taste speak, calm and premium.

05

Refined living
Everyday moments deserve beauty and intention.

Brand philosophy

THE BELIEF UNDER EVERYTHING
NOT LOUDER. WARMER.

CULTURE, CULTIVATED

FIG. 2.1C

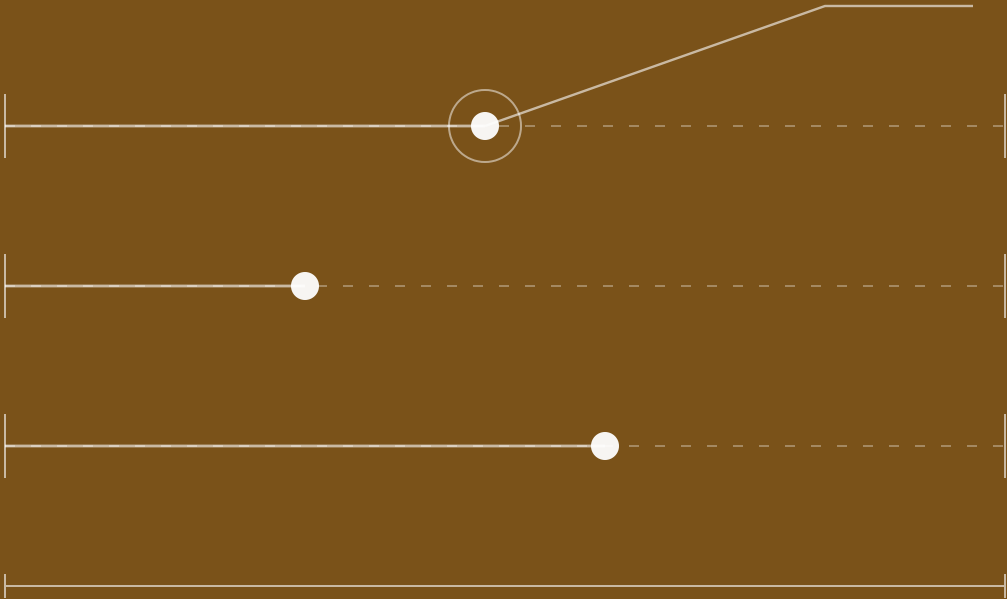

Culture, cultivated

We believe the things that are good for us should also feel good to us. Wellness has spent too long feeling like a discipline. We think it can feel like a pleasure.

So we design every part of the brand, the taste, the bottle, the words, the experience, to slow the moment down and make it feel more considered. Not louder. Warmer. More alive.

The Imperial Culture is about creating something people are glad to make part of their day, again and again.

VERBAL IDENTITY

How the brand sounds: warm, honest, quietly confident.

2.2

Voice & character

HOW WE SPEAK
WE INVITE, WE NEVER OVERSELL

The Imperial Culture speaks like a well-travelled friend who knows their craft: warm, assured, and easy to be around. We never oversell. We invite.

BRAND VOICE

Warm & assured

Confident without being loud, refined without being cold. Plain, generous and human.

BRAND CHARACTER

The considered host

The maker who cares about the details and wants you to enjoy the result, never lecturing.

PERSONALITY

Calm & cultured

Health literate but never preachy; makes wellness look like the most natural pleasure.

The voice, calibrated

FIVE SPECTRUMS · FIXED MARKERS
EVERY WRITER LANDS HERE

WHERE OUR TONE SITS

Voice is a set of deliberate choices, not a mood. These markers show exactly where The Imperial Culture leans on each spectrum, so every writer lands in the same place.

The markers never move for a campaign. A louder moment changes what we say, not how we sound.

THE TEST

Read it aloud. If it sounds like a label warning, a lecture or a sales pitch, it is not our voice yet.

Tone principles

VOICE IS FIXED · TONE FLEXES
FIVE PRINCIPLES, EVERY MESSAGE

Five ways we communicate

Voice stays constant; tone flexes to the moment. These five principles keep every message sounding like The Imperial Culture.

01 Warm & confident

Lead with warmth and quiet certainty, never arrogant, never anxious.

02 Honest & unhurried

Tell the truth about the craft, and take time to say it well.

03 Inviting, not preachy

Open the door to good living; never wag a finger.

04 Crafted & considered

Every word chosen with the same care as the brew.

05 Alive & uplifting

Bright and effervescent; leave people feeling brighter.

How we communicate

✓ DO

- ✓ Speak plainly and generously, as if sharing something good.
- ✓ Be transparent about craft, ingredients and process.
- ✓ Frame wellness as pleasure and ritual, not duty.
- ✓ Edit ruthlessly: say more with less.
- ✓ Bring warmth, lightness and a little effervescence.

✗ DON'T

- ✗ Oversell, exaggerate, or stack superlatives.
- ✗ Make vague or unprovable health promises.
- ✗ Shame, guilt or moralise about health.
- ✗ Use filler, clichés or lazy buzzwords.
- ✗ Sound flat, cold, corporate or clinical.

Worked example. “Brewed slow and honest, bright on the tongue, kind to the gut.”

Off-brand example. “The #1 detox superdrink that finally fixes your gut, guaranteed!”

Verbal messaging

FOUR TERRITORIES
EVERY MESSAGE LADDERS TO ONE

01 The craft & culture
Real fermentation, patience, living cultures, honest ingredients.

02 Feeling good, made easy
Functional wellbeing as pleasure, never clinical or preachy.

03 The everyday ritual
The midday reset, the good table, the small pause.

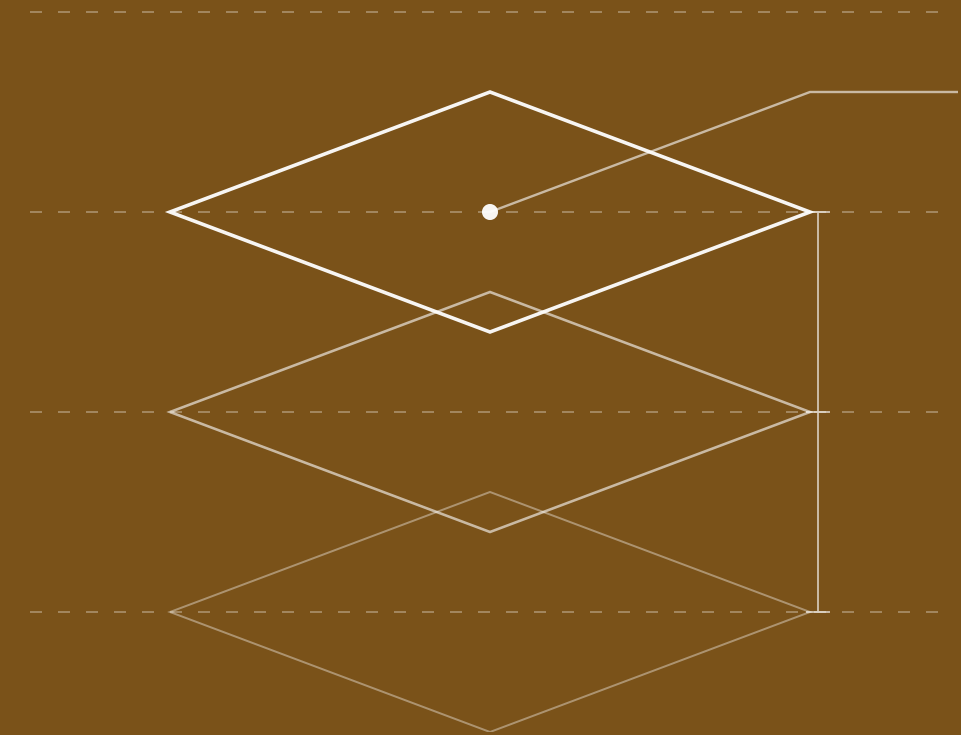

04 Refined modern living
Taste, design, intention: wellness can be beautiful.

TAGLINE
Live cultured.

PRODUCT
“Brewed slow and honest, bright on the tongue, kind to the gut.”

SOCIAL
“Good things take culture. Yours is chilling in the fridge.”

MOOD · LIGHT · TEXTURE · SPACE
PREMIUM AND CALM

The brand looks
the way it tastes

Warm, alive and refined. Amber light, effervescence, natural texture
and generous space combine into a world that feels premium and calm.

MOOD · WARM, EFFERVESCENT, ALIVE

01

LIGHT · GOLDEN HOUR, HONEST SHADOW

02

TEXTURE · GLASS, TEA, CERAMIC, STONE

03

Design principles

Four principles govern every design decision in this book. Where a layout is in doubt, the principle wins over the preference.

01

Warmth through light
Amber tones and soft light make every surface feel inviting and human, like golden hour, never cold.

02

Alive & effervescent
Bubbles, movement and living texture give the brand energy: bright, active, full of life.

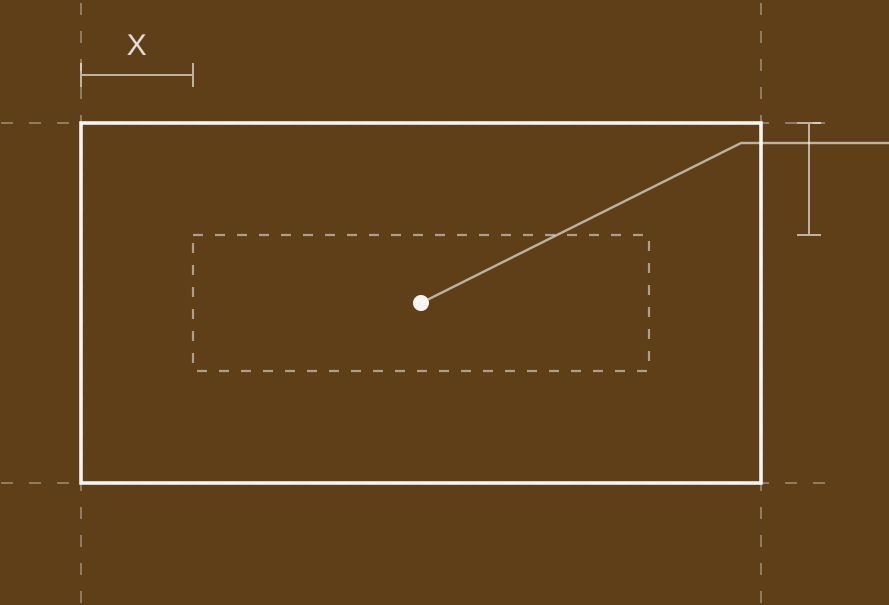

03

Refined restraint
Premium is subtraction. Generous space, clean structure, one confident focal point. Nothing crowded.

04

Honest & natural
Real texture over gloss, real moments over staging. The craft is the story.

THE LOGO

One mark, built on the X unit.

2.3.1

The logo system

FOUR APPROVED FORMS
NEVER REBUILD THE LOCKUP

Status. The wordmark lockup is applied across the brand. The standalone icon mark, shown here as the TIC monogram, is being finalised: these frames define construction, spacing, sizing, colourways and misuse, ready for the confirmed icon to drop in. The lockup itself is supplied artwork: it is placed, never rebuilt.

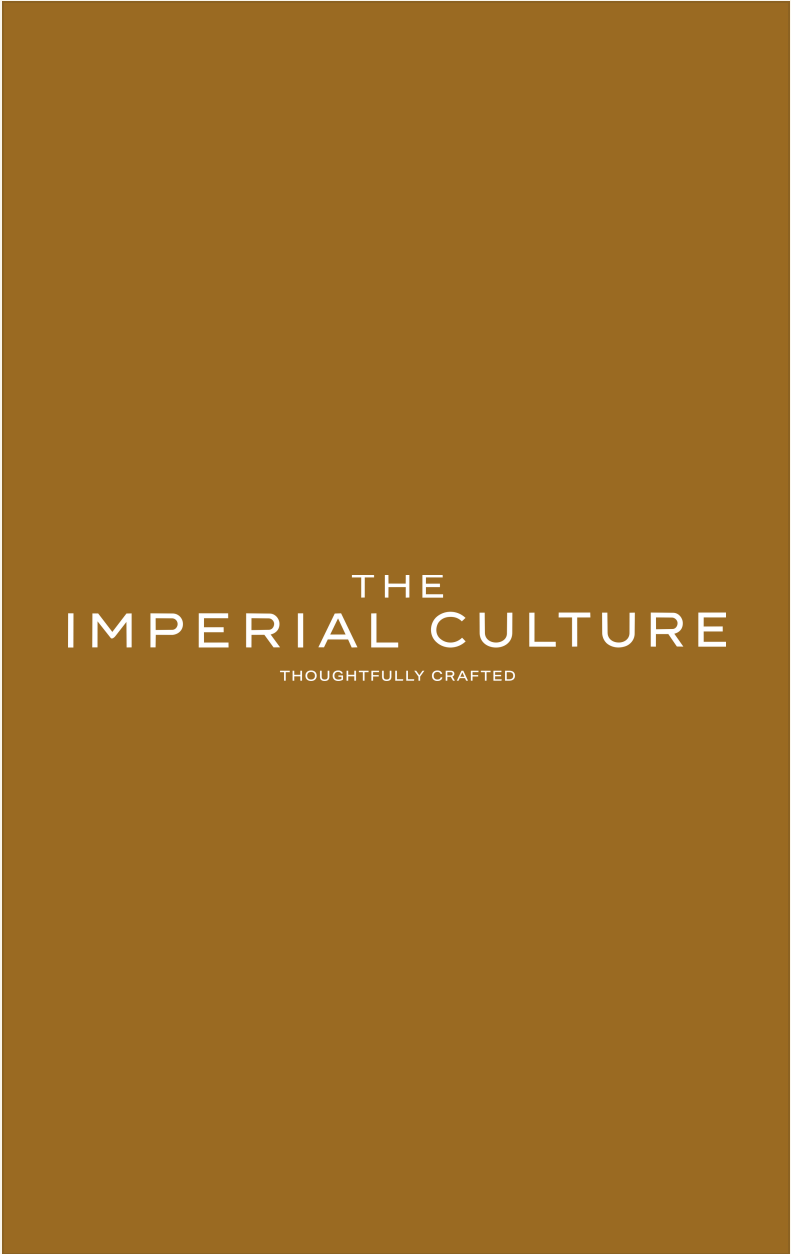

PRIMARY · INK ON CREAM

REVERSED · ON INK

B

REVERSED · ON AMBER

D

Construction & clear space

THE X UNIT GOVERNS EVERYTHING
CLEARSPACE = X

BUILT ON A GRID

X is the cap height of IMPERIAL CULTURE in the supplied lockup. Every measurement in the mark is a multiple of it, and minimum clearspace on all sides equals X: that zone stays free of type, imagery and competing elements.

In print, clearspace is never less than 5 mm on the sides or 10 mm top and bottom, whichever is larger.

The unit X	CAP HEIGHT OF IMPERIAL CULTURE
Lockup height	2.97 X
Lockup width	18.49 X · RATIO 6.21 : 1
“THE” cap	0.66 X · SITS 0.39 X ABOVE
Tagline cap	0.29 X · SITS 0.64 X BELOW
Clearspace	X ON EVERY SIDE, ALL FORMS

No other element, type or image may enter the exclusion zone.
When a layout cannot hold it, the layout changes, not the clearspace.

Logo sizes, the floors

FOUR FLOORS · NEVER BELOW
LEGIBILITY OUTRANKS LAYOUT

MINIMUM SIZE

Below these floors the tagline is dropped first, then the wordmark gives way to the brand mark. A mark that cannot be read is not a mark.

Primary · digital	140 PX WIDE MINIMUM
Primary · print	28 MM WIDE MINIMUM
Brand mark · digital	24 PX MINIMUM
Brand mark · print	8 MM MINIMUM

Tagline. “Thoughtfully Crafted” is part of the supplied lockup, not type we set. Below the digital floor it stops being legible, so the mark gives way to the brand mark rather than the tagline being reset or removed.

Colourways & backgrounds

FOUR COLOURWAYS · NO OTHERS
CONTRAST IS NOT NEGOTIABLE

Four approved colourways. Gold-on-ink and ink-on-cream are primary; everything else is a controlled exception.

							
INK, ON CREAM	PRIMARY	REVERSED WHITE, ON AMBER	PRIMARY	IMPERIAL GOLD, ON INK	APPROVED	MONO INK, SINGLE COLOUR	APPROVED

Rule. Only place the logo on backgrounds that keep full contrast. On busy photography, use the reversed mark inside a solid brand block, never floating on the image.

Logo misuse

SIX WAYS TO BREAK IT
ALL SIX ARE FORBIDDEN

The logo’s integrity is the brand’s integrity. These rules are absolute, with no exceptions for any channel, partner or campaign.

The logo is stretched horizontally, making the letters thin and elongated. A small 'x' icon is in the top right corner of the image area.

DON'T DISTORT

Never stretch, squash or skew.

The logo is shown in a solid blue color, which is not one of the four approved colors. A small 'x' icon is in the top right corner of the image area.

DON'T RECOLOUR

Only the four approved colourways.

The logo is shown with a soft drop shadow behind it. A small 'x' icon is in the top right corner of the image area.

DON'T ADD EFFECTS

No shadows, glows or outlines.

The logo is placed on a background with diagonal stripes, which reduces its contrast and visibility. A small 'x' icon is in the top right corner of the image area.

DON'T REDUCE CONTRAST

Never place on low-contrast grounds.

The logo is re-typed with incorrect letter spacing, making it look amateurish. A small 'x' icon is in the top right corner of the image area.

DON'T REBUILD

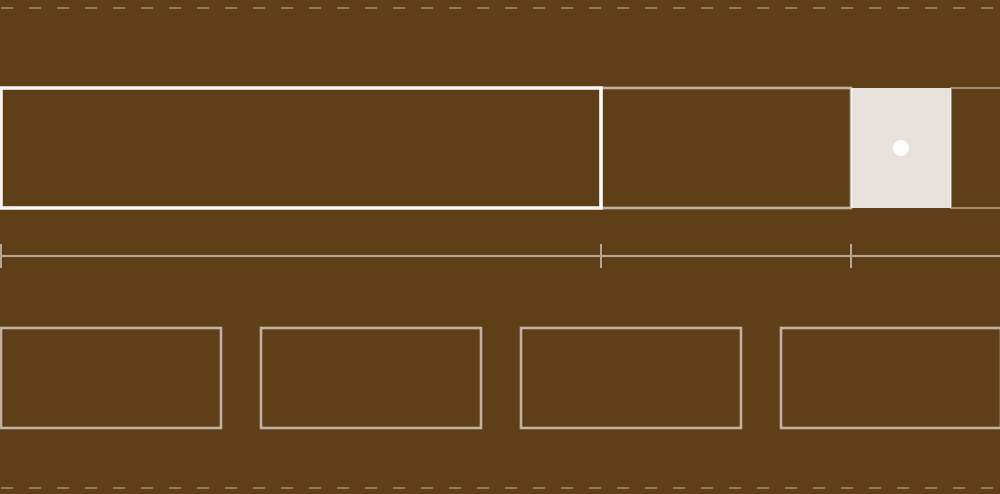

Never re-type or re-space the lockup.

The logo is rotated at an angle, which is not allowed. A small 'x' icon is in the top right corner of the image area.

DON'T ROTATE

The lockup is always level.

Suggested pairing ✓

These pairings are set so the mark and the type stay legible on every surface, on screen, in print and on pack. Each clears the AA contrast floor and keeps Imperial Gold working as a signal rather than a field.

Use them as supplied. A pairing that is not on this page routes through the brand custodian before it ships.

CARDS & ALTERNATES

Avoid pairing !

These combinations compromise readability, contrast and balance. Gold on cream, ginger on cream and gold on amber all fall below the contrast floor.

Gold never carries a paragraph and never becomes a section background: it marks, it does not fill. A mark set on a gradient or a busy photograph loses its edge.

If a surface cannot hold an approved pairing, the surface is redesigned, not the palette. Nothing here is re-tinted to make a layout work.

SIX WAYS TO DILUTE IT

Misuse is not only a logo problem. These are the six ways the wider system gets diluted, in order of how often it happens.

COLOUR

Gold as a page field, new tints, or off-palette accents.

TYPE

A third typeface, synthetic bold or italic, or a size off the ladder.

LAYOUT

Crowded corners, competing focal points, or content outside the margins.

IMAGERY

ELEMENTS

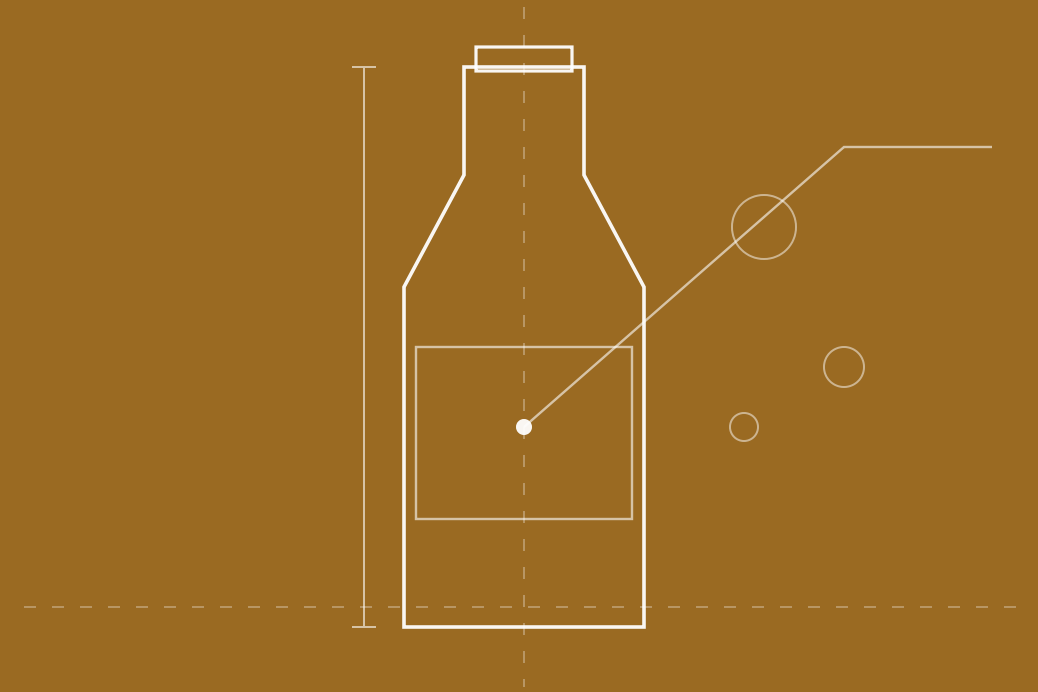

Bubbles behind body copy, gradients under text, or a fourth element.

ONE

Discount-led shouting, health claims, or hype in any channel.

The check. If a piece of work would still be recognisable as ours with the logo removed, the system is working. If it needs the logo to be identifiable, something on this page has gone wrong.

PACKAGING

Our loudest, quietest statement.

3.1

The bottle & label

THE BRAND'S ICON
ONE MARK, ONE FLAVOUR NAME

The bottle & label

Packaging is our loudest, quietest statement. The bottle is the brand’s icon: clean glass, the amber brew showing through, and a refined label anchored by the mark and one confident flavour name.

Hierarchy	1 MARK · 2 FLAVOUR · 3 DESCRIPTOR
Then	FUNCTION · VOLUME · BATCH
Stock	UNCOATED CREAM OR KRAFT
Finish	OPTIONAL GOLD FOIL ON THE MARK
Feel	CRAFT, PREMIUM, ALIVE

Label tone. Cream or kraft with gold and ink. Honest, uncluttered, and never more than one accent on the face.

The product

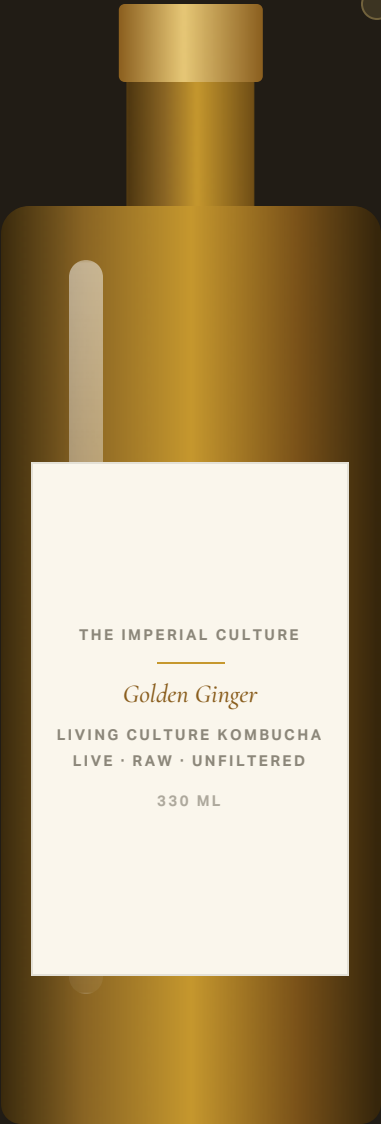

SMALL BATCH · SLOW BREWED
GENUINELY ALIVE

/ LIVING CULTURE, BOTTLED

Raise the culture.

Small batch, slow brewed, and genuinely alive.
Every bottle is a living culture kombucha,
crafted to be as good for you as it is to drink.

- LIVE CULTURES
- SMALL BATCH
- NO ADDED SUGAR

Tasting notes

THE SIGNATURE BLEND
WRITTEN IN CORMORANT ITALIC

AROMA	<i>Fresh ginger, citrus zest, green tea</i>
TASTE	<i>Bright and lightly tart, a clean finish</i>
BODY	<i>Light, crisp, naturally effervescent</i>
CULTURE	<i>Live, raw, unfiltered fermentation</i>
FUNCTION	<i>Gut friendly, low sugar, no additives</i>
PAIRS WITH	<i>Brunch, sharp cheese, a warm afternoon</i>

GOLDEN GINGER · THE SIGNATURE

Credentials

FIVE SEALS · ALL EARNED
NEVER APPLIED WITHOUT CLEARANCE

The seals we stand behind: honest markers of how The Imperial Culture is made, printed with pride on every bottle.

Each seal is a claim, and every claim is regulated. Nothing here is applied to a market until Legal (4.2) has cleared it for that market’s labelling rules.

The box tier system

FOUR TIERS · FIXED FINISHES
OCCASION SETS THE TIER

Four tiers, each with a fixed material and finish. The tier is chosen by occasion, never by budget alone: a cheaper finish on a gift tier reads as a downgrade of the whole brand.

NAMING RULES

- ✓ Short, evocative, single or paired words (Golden Ginger, Wild Hibiscus).
- ✓ Sensory and natural: reflect the ingredient or the feeling.
- ✓ Consistent structure across the whole range.
- ✗ Clinical, medical or supplement-style names.
- ✗ Over-hyped or trend-chasing language.
- ✗ Long, complex or hard-to-say names.

House style. Two words maximum, sensory first, ingredient second: *Golden Ginger, Wild Hibiscus*. The master brand always leads the lockup; the flavour never becomes the logo.

THE SMALL TOUCHES
WHEN IN DOUBT, DO LESS

The pieces that carry the brand day to day: digital signatures, team identity, apparel, and the small touches that build recognition.

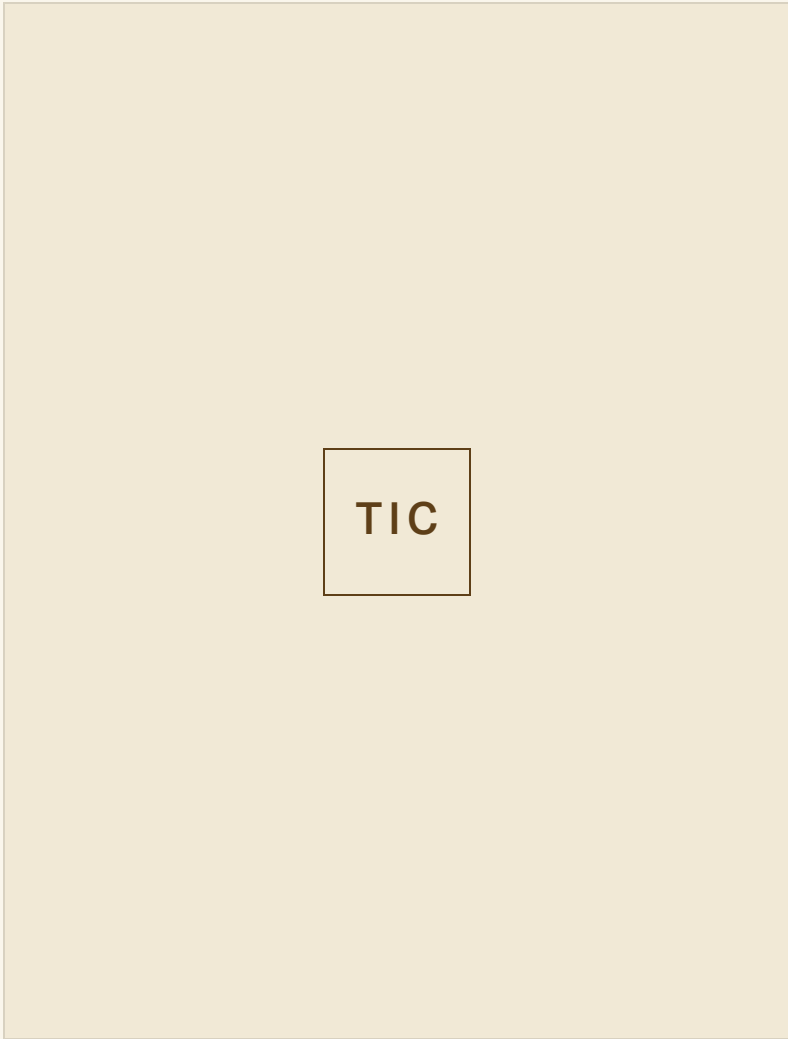

EMAIL SIGNATURE **DIGITAL**
One line, one rule, one mark

LANYARD & NAMETAG **TEAM**

APPAREL: TEE, CAP, APRON **MERCH**

STICKERS & LABELS **EXTRAS**
The monogram, single colour

Principle. Collateral should feel like a natural extension of the pack: one brand colour, one clear mark, plenty of space. When in doubt, do less.

MARKETING & DIGITAL

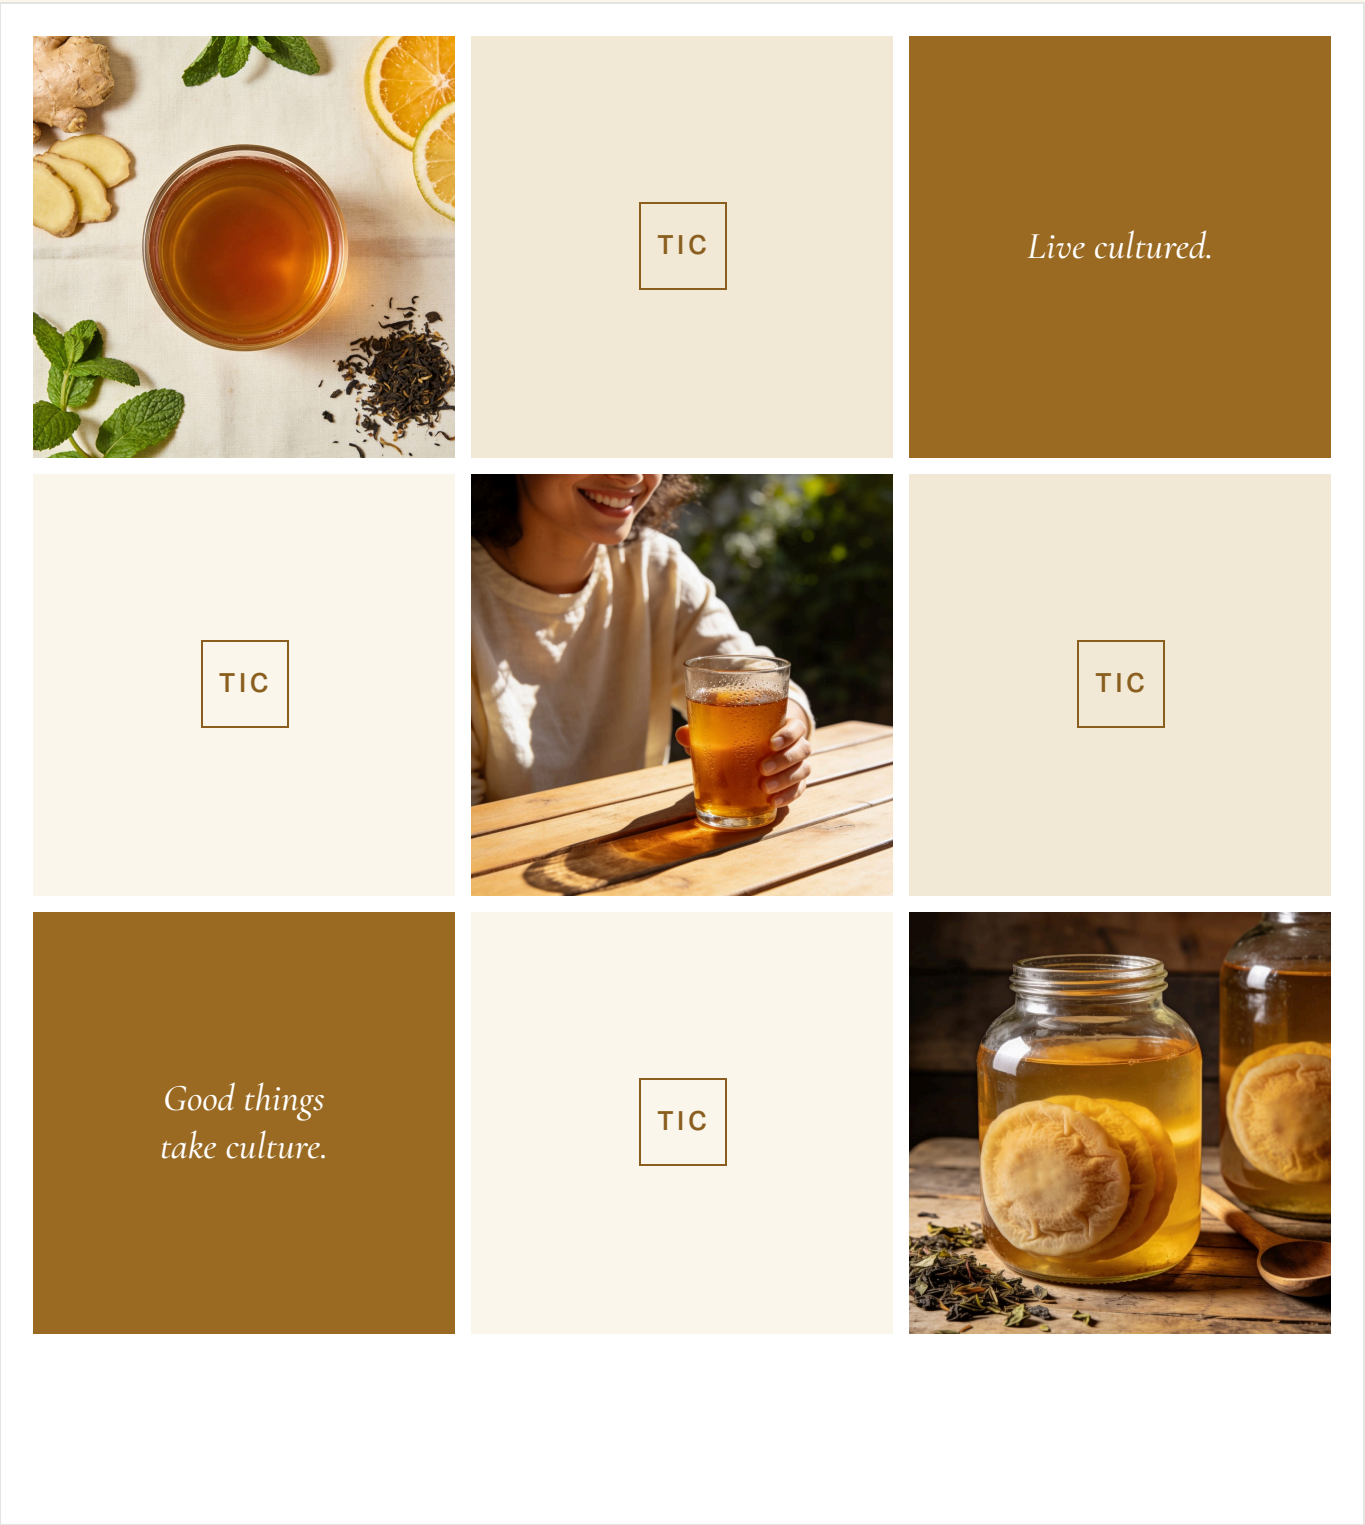

The same warmth, at scale.

3.3

Social media

THE FEED IS A COMPOSITION
RECOGNISABLE BEFORE THE CAPTION

GRID RHYTHM · 3 × 3 @THEIMPERIALCULTURE

A curated window into good living

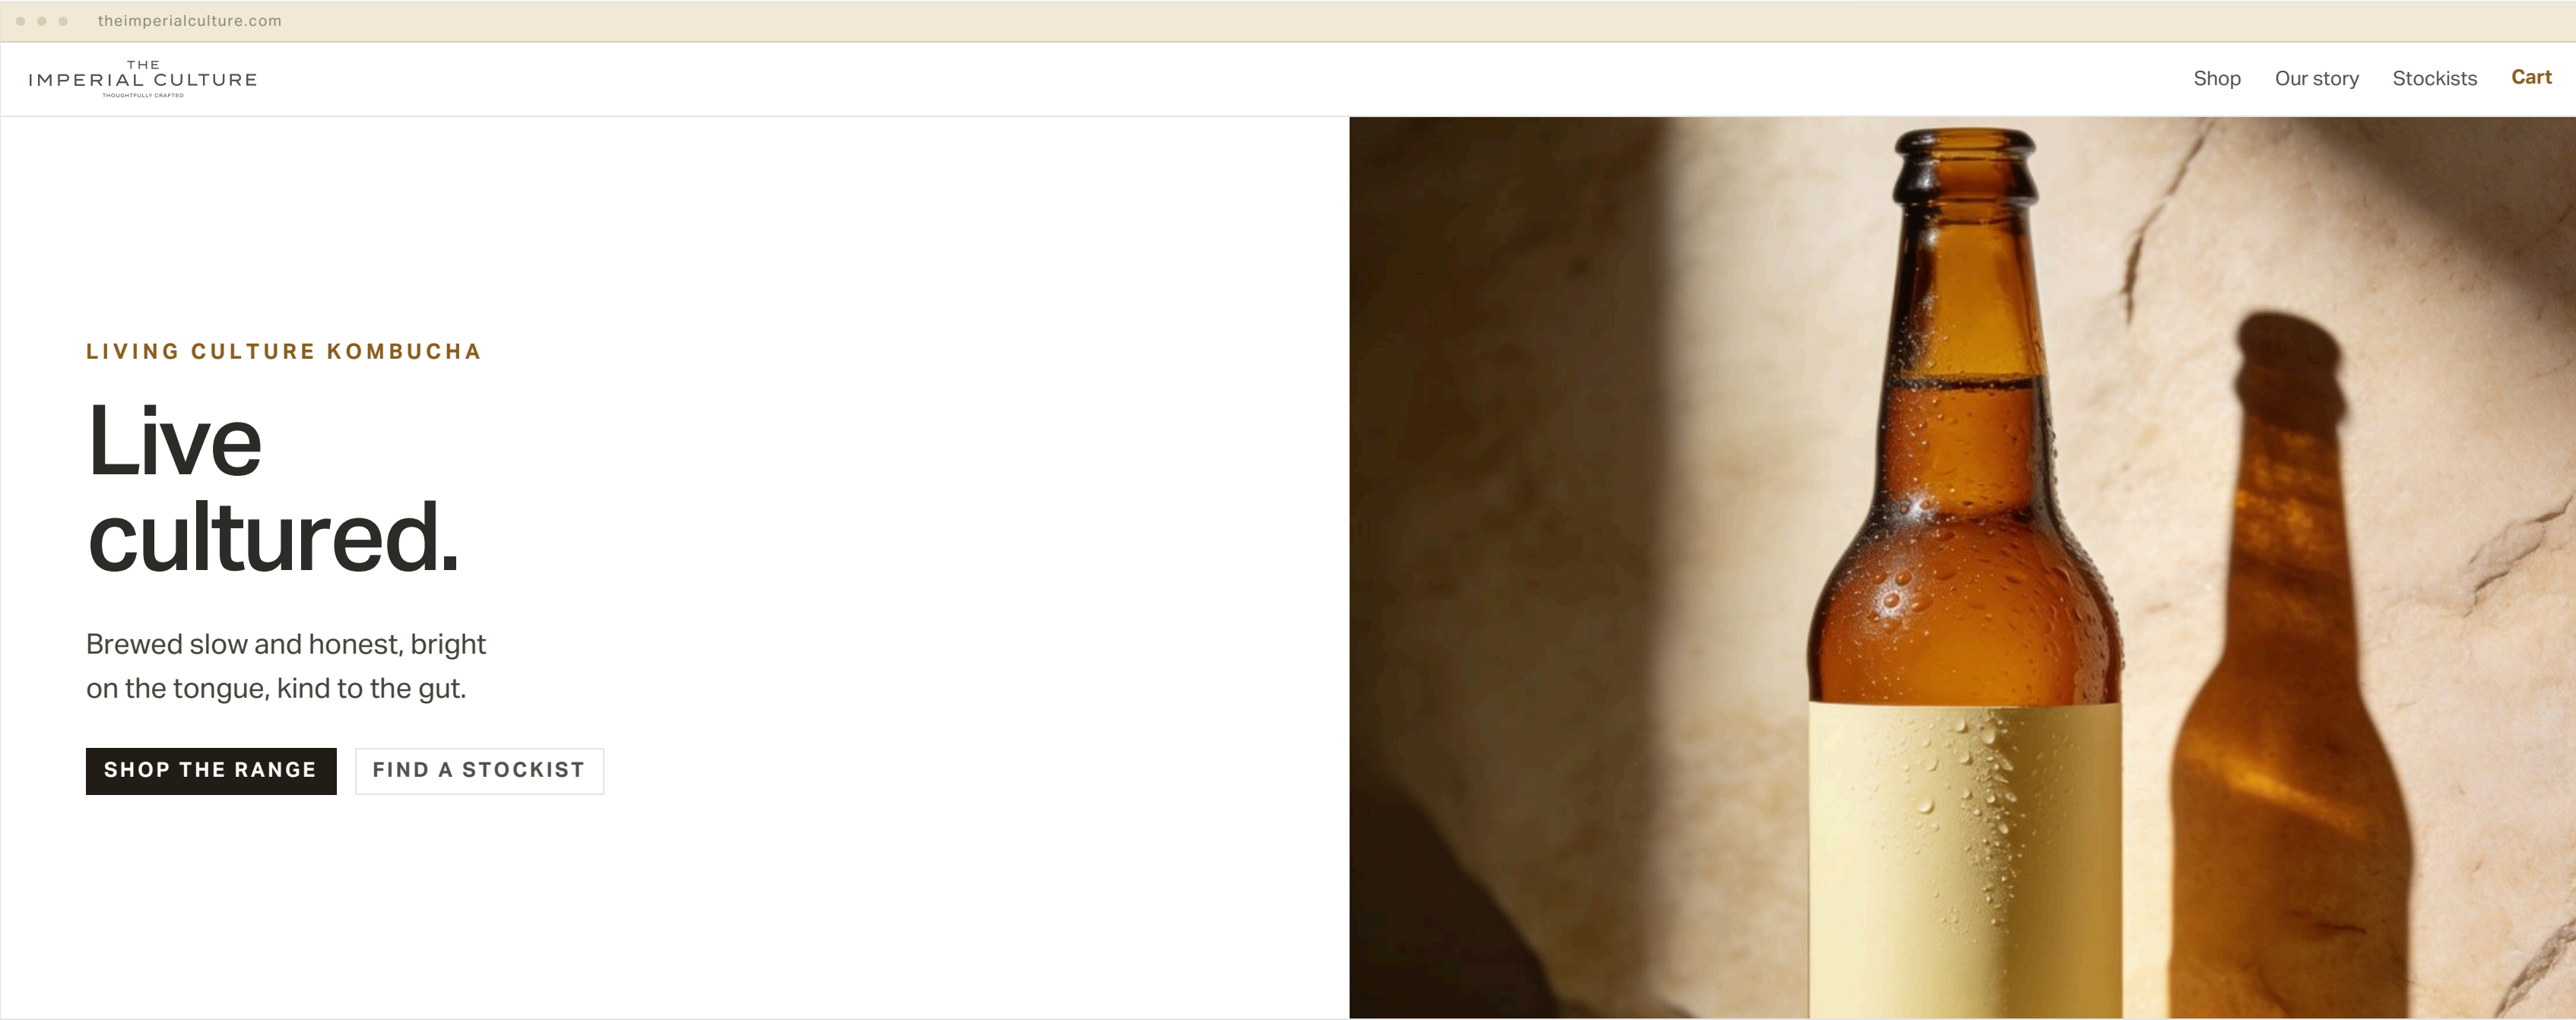

Every post should feel unmistakably ours before the caption is even read. Alternate product, lifestyle and craft so the feed breathes.

Grid rhythm	PRODUCT · LIFESTYLE · CRAFT
Consistency	WARM LIGHT · BRAND COLOUR · SPACE
Voice	WARM, WITTY, UNHURRIED
Never	DISCOUNT SHOUTING · HYPE · CLUTTER

Caption voice. Warm, witty, unhurried. Invite, never hard sell.
One idea per post, and never more than one call to action.

Website & commerce

CALM · PREMIUM · WARM
EFFORTLESS TO EXPLORE

01 · LAYOUT

Wide margins, one hero per view, generous space.

02 · TYPE

Aktiv Grotesk throughout; Cormorant italic for editorial accents.

03 · MOTION

Gentle reveals and effervescence. Nothing that hurries the reader.

04 · COMMERCE

A calm purchase path. Quality over urgency, never countdown timers.

MARK STAYS LEVEL

RETAIL ACTIVATION

SAMPLING STAND

In physical space, restraint wins. One image, one line, one mark: confident enough to hold attention without shouting. If a passer-by needs more than three seconds, the piece is too busy.

Video & motion

PAGE · MOTION · SOUND

THE MOTIF MOVES, THE MARK DOES NOT

01 · PACE

UNHURRIED, CINEMATIC

Let each shot breathe. Cuts land on the pour, never on the beat.

02 · SIGNATURE MOTION

RISING BUBBLES

Rising bubbles, pouring liquid, soft light shifts.
The motif animates; the logo never does.

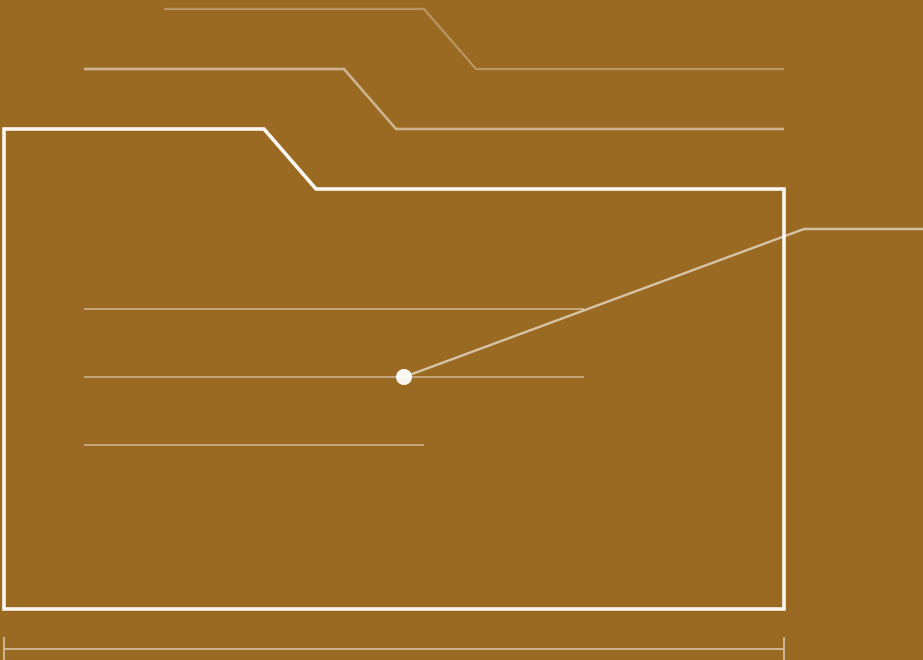

03 · SOUND

WARM, ORGANIC, MINIMAL

A satisfying pour, a gentle fizz. No stock
music beds, no voice-over hard sell.

End frame. Every film closes on the wordmark, centred, held for a minimum of 1.5 seconds on cream or ink, followed by the tagline in Cormorant italic. Nothing else moves in the end frame.

Access. Files are issued by the brand custodian, versioned, on request. Forwarded copies are not a source of truth: if you did not receive it from the library, do not use it.

LEGAL & TRADEMARK

The protection under the whole system.

4.2

Legal, trademark & compliance

PROTECTED PROPERTY
CLAIMS CLEAR LEGAL FIRST

To preserve the integrity of The Imperial Culture, all brand elements are subject to legal protection and consistent, compliant use.

INTELLECTUAL PROPERTY

The name, logo, wordmark, colour system, typography and visual signatures are protected property. They may not be reproduced, altered or extended without written approval.

TRADEMARK USAGE

Use the registered mark consistently. Apply the appropriate symbol as advised by legal counsel, and never alter, redraw or recreate the mark for a single application.

COMPLIANCE

All product, health and labelling claims must meet local regulations. Route every wellness claim through legal review before publication, in every market.

Distinguish the trademark. Always use the full brand name as a distinctive brand, keep it consistent across all materials, and preserve its integrity to protect long-term brand value.

Collaboration & co-branding

THREE POSTURES · ONE STANDARD
NEITHER BRAND CROWDS THE OTHER

Partnerships extend our reach, but never at the cost of our identity. When The Imperial Culture works with others, the brand leads with clarity, warmth and equal respect.

TIC LEADS

Curated collaborations and in-house editions. The Imperial Culture name takes primary position.

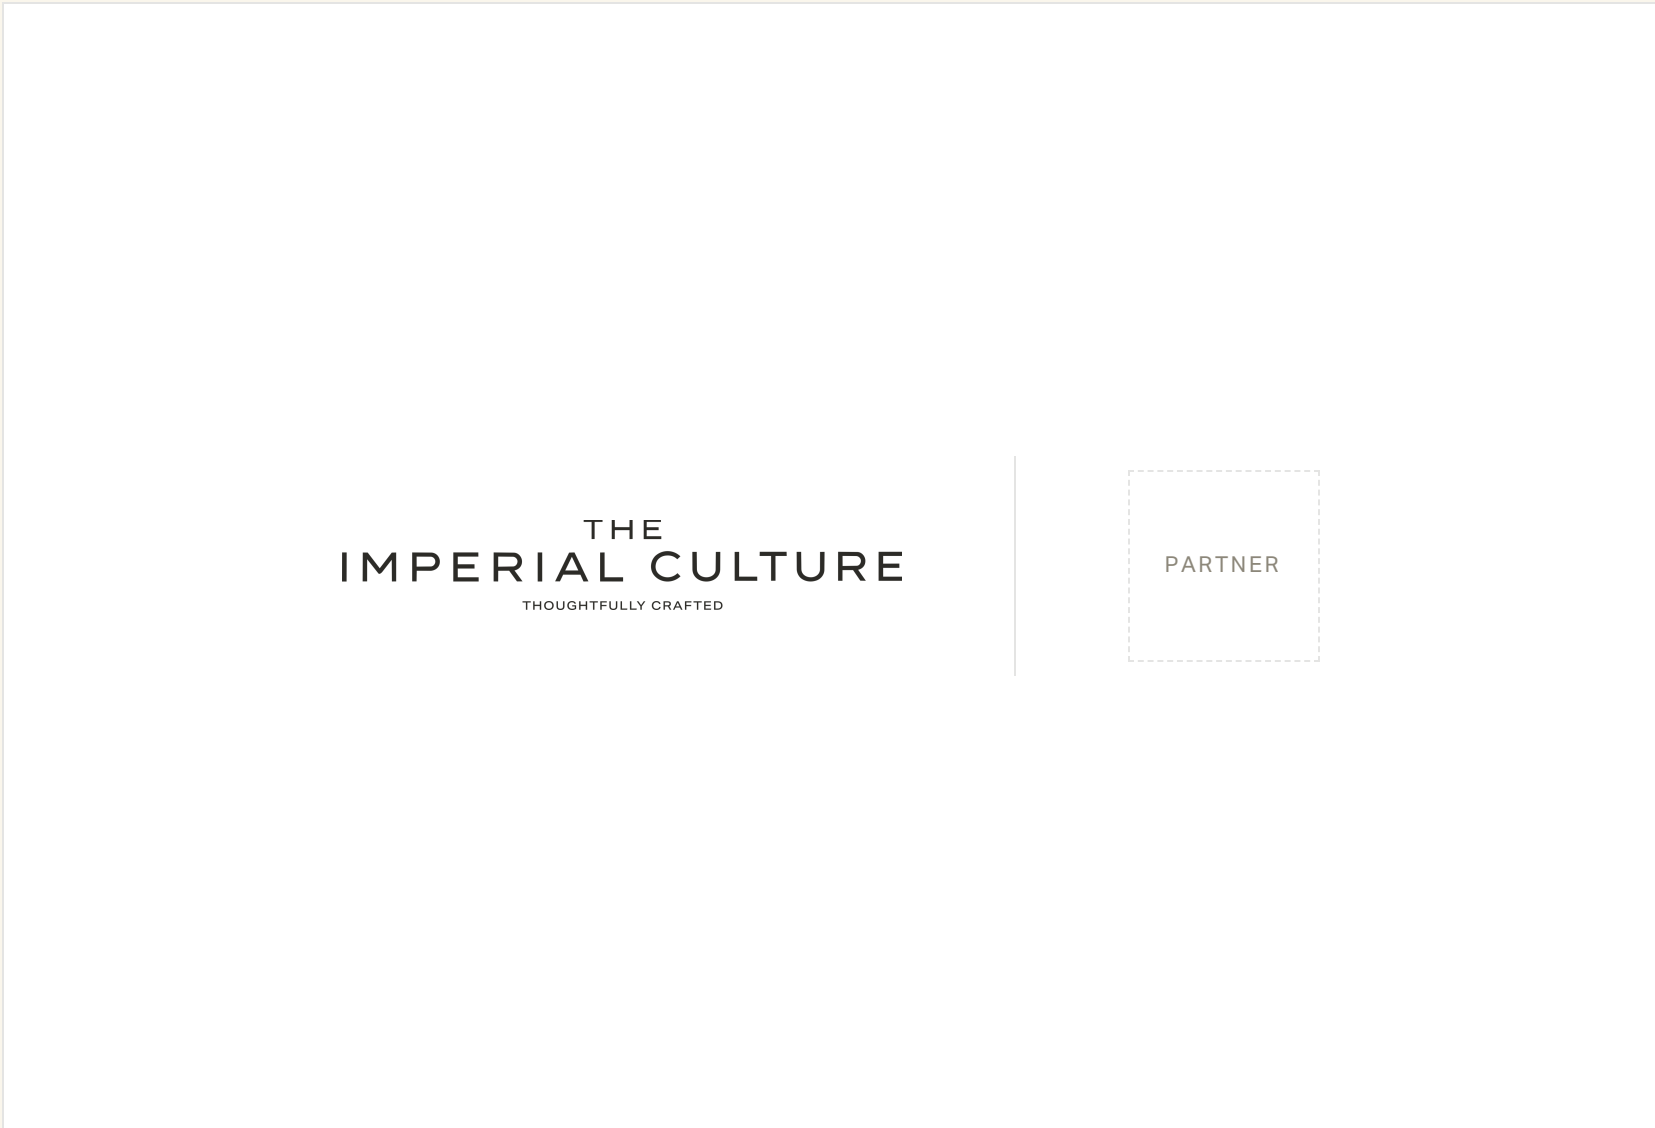

EQUAL PARTNERSHIP

Co-branded work. Clear, balanced lockups with defined spacing. Neither brand crowds the other.

NEVER

No cramped lockups, no colour compromise, no mixing of brand assets into a single mark.

THE CO-BRAND LOCKUP

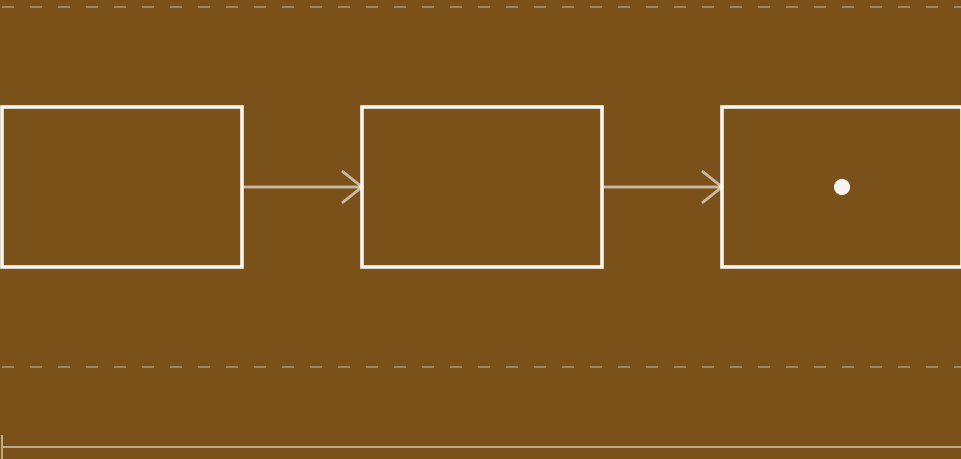

EQUAL LOCKUP · DIVIDER = X, CLEARSPACE = X EACH SIDE

APPROVED

Rule. Every partnership must protect the calm, premium character of the brand. If a collaboration would make TIC feel loud, cheap or off-tone, it is not the right partnership.

GOVERNANCE

Consistency is not negotiable.

4.3

Protecting against dilution

THREE PRINCIPLES · FIVE RISKS
DILUTION IS CUMULATIVE

CORE PRINCIPLES

- 01

Consistency over novelty
Repetition builds recognition. Resist constant reinvention.
- 02

Quality over volume
Never trade craft or premium feel for reach or speed.
- 03

Guard the tone
Avoid discount-led, hype or clinical messaging in every channel.

DILUTION RISKS TO WATCH

- ✗

Aggressive discounting and “sale” messaging.
- ✗

Off-brand colour, type or cluttered layouts.
- ✗

Cheap materials or inconsistent packaging.
- ✗

Overextending the range without structure.
- ✗

Partnerships that clash with brand values.

The custodian’s question. Not “is this on brand?” but “if we did this every week for a year, what would the brand become?”
Dilution is rarely one bad piece; it is a hundred small compromises.

Approvals & sign-off

THREE STEPS · ONE CUSTODIAN
ONLY APPROVED WORK SHIPS

This guide upholds the brand’s integrity, but it cannot cover every case. When a new application is not answered here, route it through the brand custodian before it goes live.

STEP 1

Create to guide

Match new work to the closest existing standard in this book.

STEP 2

Submit for review

Send to the brand custodian with context: channel, market, run length.

STEP 3

Approve & release

Only approved work ships, prints or publishes. No exceptions.

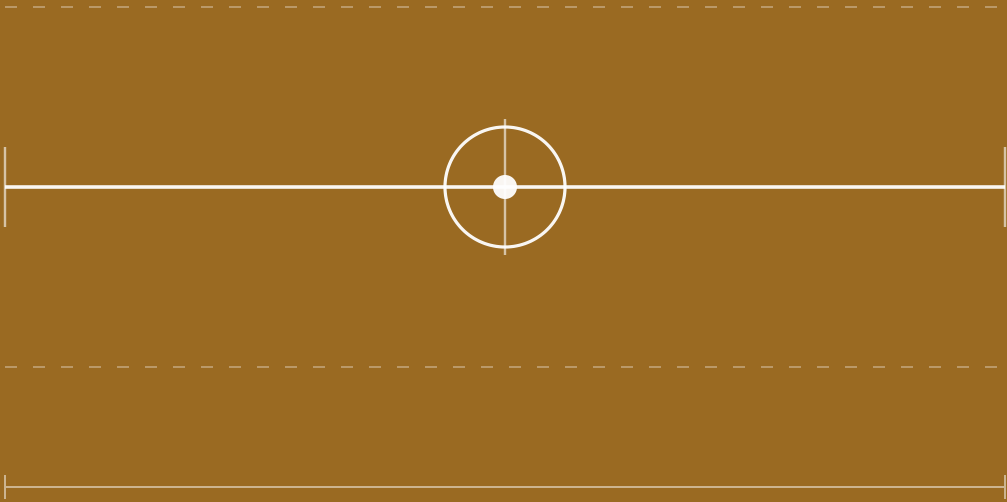

WHAT ALWAYS NEEDS SIGN-OFF

- ✓ All packaging and label artwork
- ✓ New product names and edition badging
- ✓ Out of home, press and paid media
- ✓ Anything carrying a health or function claim
- ✓ Co-branded and partnership lockups
- ✓ Any new application not covered in this book

TURNAROUND

Allow three working days for standard review, and five for anything carrying a health or regulatory claim. Rush requests are accepted, but the standard is never lowered to meet a deadline.
