

YOUR TOTAL FACILITY SOLUTIONS PROVIDER

**31** years of delivery  
since 1995

**Engineering the facilities  
advanced industry runs on.**

EPC

Process Critical Utilities & Total Tool Installation Solutions

Energy Management

For cleanroom critical industries: semiconductor, data centre, EV battery,  
pharmaceutical and energy.

ISO 9001 · ISO 14001 · ISO 45001 · CIDB G7

PRESENTATION SLIDE · EDITION 2026

# Contents

Three parts. Every section is numbered, named and opens with a one-line summary.

## 01 The Company

Who we are, how we are built, and what we deliver.

- 01.1 About IAQ
- 01.2 IAQ at a Glance
- 01.3 Milestones
- 01.4 Global Footprint
- 01.5 Core Values
- 01.6 Business Units
- 01.7 Delivery Models
- 01.8 Scope of Services
- 01.9 Industry Focus

## 02 Project References

The work itself, grouped by industry and region.

- 02.1 Portfolio Overview
- 02.2 Semiconductor · Malaysia
- 02.3 Semiconductor · Singapore
- 02.4 Data Centre
- 02.5 EV Battery · Europe
- 02.6 Semiconductor · Europe & Morocco
- 02.7 Semiconductor & Display · China
- 02.8 Photovoltaics
- 02.9 Pharmaceutical & Medical
- 02.10 District Cooling & Energy
- 02.11 Reference Index

## 03 Safety, Quality & ESG

The standards every project is held to.

- 03.1 ESG Commitments
- 03.2 Certifications & Awards
- 03.3 Safety & Recognition
- 03.4 Closing
- 03.5 Contacts

PART 01 OF 03

# 01

## The Company

SECTIONS 01.1 TO 01.9

Established 1995 · 31 years in total facility solutions

450 people across 7 global offices

ISO 9001 · ISO 14001 · ISO 45001 certified

## About IAQ

Who we are and what we build. The delivery models are in 01.7.

# Established 1995. A trailblazer in total facility solutions.

Engineering, procurement, construction and maintenance for the industries where contamination, uptime and safety decide the outcome, from semiconductor wafer fabs to gigafactories, data centres and pharmaceutical plants.

REGISTERED NAME    **IAQ Technology International Sdn Bhd**  
REGISTRATION NO.    **200001031412 (534019-T)**

### Vision

To be a regional facility solutions provider with engineering excellence that facilitates technological innovation and advancement in quality of life.

### Mission

Providing innovative, sustainable facility and engineering solutions benefitting our clients and stakeholders, driven by our leadership, employees and partners globally.

## IAQ at a Glance

The company in six numbers, and the certifications that stand behind them.

**31**  
YEARS EXPERIENCE

**450**  
EMPLOYEES

**200+**  
PROJECTS COMPLETED

**1.5** mil m<sup>2</sup>  
CLEANROOM BUILT-UP AREA

**7**  
GLOBAL OFFICES

**20** t / yr  
CARBON FOOTPRINT REDUCED

### CERTIFICATION & RECOGNITION

INTERTEK **ISO 9001:2015**

INTERTEK **ISO 14001:2015**

INTERTEK **ISO 45001:2018**

CIDB **GRADE G7**

PKK **GRADE G7**

HIGHWIRE SAFETY **GOLD AWARD**

MCIEA 2024 **BUILDER OF THE YEAR**

## Milestones

IAQ's own timeline, 1995 to 2026: the offices opened along the way, and the projects that marked each year.

### OFFICES OPENED

### ● EPCC PROJECTS ● ENERGY PROJECTS ● TOOL UTILITY PROJECTS

## Global Footprint

Seven markets, from the Malaysian headquarters outward.

1995

### Malaysia

Turnkey design, procurement, construction and commissioning for hi-tech clients. Selangor (HQ), Penang, Johor and Kuching.

2020

### Sweden

Gigafactory construction for EV battery manufacture, part of Europe's clean and digital transition.

2023

### Singapore

Design & build EPCM services to global clients in the semiconductor industry.

2025

### Germany

EPC services following the semiconductor industry expansion in Europe.

2026

### India

D&B turnkey delivery for India's first wafer fab.

2026

### United States

Entry to the US following the localisation of advanced technology facilities.

—

### Ireland

Newest market. Scope and year to be confirmed by IAQ.

## Core Values

Six commitments that govern how every project is run. Not words, but working rules.

01

### Safety First

Our services and works are carried out to the highest standard of safety and ethics.

02

### Quality Consistency

We take pride in the quality of solutions delivered, to achieve maximum client satisfaction.

03

### Honesty and Integrity

Our core code of conduct, fostering trust, accountability, professionalism and ethical practice.

04

### Efficiency & Proficiency

Committed to maximising available resources to achieve the best result collectively.

05

### Engineering Capabilities

Our way of working revolves around engineering principles, developing precise and sustainable solutions.

06

### Pursuit of Excellence

Devoted to excellence in all our works, providing sustainable solutions to complex challenges.

## Business Units

Three delivery capabilities under one group, covering the full chain.

### 01

IAQ SOLUTIONS SDN BHD

#### Engineering, Procurement and Construction (EPC)

EPC from conception to operation, completion and maintenance. Every stage managed, from initial design through commissioning, so clients in hi-tech industries can bring their visions to life.

### 02

IAQ UTILITY SOLUTIONS SDN BHD

#### Process Critical Utilities & Total Tool Installation Solutions

EPCM partner for semiconductor manufacturing: process-critical utility infrastructure and total tool installation, bridging facility readiness and manufacturing start-up to accelerate fab ramp-up.

### 03

IAQ ENERGY FACILITY MANAGEMENT SDN BHD

#### Energy Management

Energy management solutions that optimise operations and reduce carbon footprint, keeping facilities running at the highest levels of efficiency and sustainability.

# Delivery Models

The three models IAQ contracts under, across the full life of a facility.

## EPCM

Engineering, Procurement & Construction Management

Management of engineering, procurement and construction for semiconductor manufacturing, bridging facility readiness and manufacturing start-up to accelerate fab ramp-up.

DELIVERED UNDER THIS MODEL

- SilTerra expansion
- Soitec PR1A expansion
- Infineon IFKM3 expansion
- Micron MSH

## EPCC

Engineering, Procurement, Construction & Commissioning

Full turnkey delivery from conception to operation, completion and maintenance, with every stage managed from initial design through commissioning.

DELIVERED UNDER THIS MODEL

- ST Microelectronics
- SilTerra FAB
- ESCM Germany
- KLCC DCS chiller upgrading

## EFM

Energy Facility Management

Ongoing energy and facility management that optimises operations and reduces carbon footprint, keeping facilities at the highest levels of efficiency.

DELIVERED UNDER THIS MODEL

- KLCC DCC Plant
- GDC Putrajaya chiller upgrading
- Pagoh Edu Hub DCS

## Scope of Services

Eight packages, self-performed and integrated under one contract.

### Civil, Structural & Architectural

Greenfield and brownfield CSA

01

### Air Conditioning System

ACMV, make-up air, recirculation

02

### HT & LV Electrical System

Up to 33kV substations

03

### Fire Protection System

Detection, suppression, compliance

04

### Cleanroom System

ISO 3 to ISO 8 · Class 1 to Class 100K

05

### Process Utilities

CDA, PCW · Process Exhaust · Chemical / Gas Delivery · Ultra Pure Water (UPW) · Waste Water Treatment

06

### Facility Monitoring & Control System

FMCS, BMS, PA

07

### Tools Hookup

Progressive tool install and hookup

08

## Industry Focus

Seven sectors, one discipline: contamination control under code and class.

### Semiconductor

Wafer fab, advanced packaging, test & assembly

### Data Centre

Hyperscale cooling, security, uptime

### EV Battery

Dry rooms, moisture control, explosion proofing

### District Cooling & Heating

Urban energy plant and distribution

### Photovoltaics

Cell and module lines, toxic material handling

### Pharmaceuticals & Hospitals

GMP grades, regulated environments

### Food & Beverage

Hygienic design, quality and safety standards

## Your facility next

Total facility solutions, end to end.

PART 02 OF 03

# 02

## Project References

SECTIONS 02.1 TO 02.11

200+ projects completed across three regions

Over 1.5 million m<sup>2</sup> of cleanroom built

ISO 3 to ISO 8 · Class 1 to Class 100K

## Portfolio Overview

How the reference book breaks down by region, and which sections cover what.

02.2 TO 02.4 · 02.8 TO 02.10

### Malaysia & Singapore

Semiconductor, data centre, pharmaceutical, photovoltaics, district cooling and energy.

02.5 TO 02.6

### Europe & Morocco

EV battery gigafactories, wafer fabs and advanced semiconductor in Sweden, Norway, France, Poland and Morocco.

02.7

### China

Semiconductor, display, pharmaceutical, automotive and R&D facilities.

CONTRACT MODELS

GC · EPCC · EPCM · PCC · Tool Hookup

Semiconductor · Malaysia

Wafer fab, advanced packaging, test and assembly. Further Malaysian projects are listed in 02.11.

KULIM, KEDAH · GREENFIELD WAFER FAB

Infineon Kulim Wafer Fab 3

|             |                                                                       |
|-------------|-----------------------------------------------------------------------|
| DESCRIPTION | General contractor for WP06, KLM3 Expansion, 35,000 m² cleanroom area |
| SCOPE       | PCC for cleanroom and mechanical works                                |
| CLEANROOM   | ISO 4 · 5 · 6 · 7 (CLASS 10 · 100 · 1K · 10K)                         |

ADVANCED PACKAGING · 75,000 M²

P Project

|             |                                                                                          |
|-------------|------------------------------------------------------------------------------------------|
| DESCRIPTION | Progressive-built EPCM contract model for the client's advanced packaging facility       |
| SCOPE       | Design & build GC: CSA, MEP, process utilities, chemical & gases system, waste treatment |
| CLEANROOM   | ISO 4 TO 7 (CLASS 10 TO 10K)                                                             |

Semiconductor · Singapore

Design & build EPCM in Singapore since 2023.

PHOTOMASK FACILITY

Teksend Photomask

|             |                                                                                                           |
|-------------|-----------------------------------------------------------------------------------------------------------|
| DESCRIPTION | Addition and alteration to an existing two-storey building with cleanroom facilities and ancillary office |
| SCOPE       | EPCC for cleanroom, ACMV, electrical, process utility, BMS, PA, WWT, UPW, tool hookup                     |
| CLEANROOM   | CLASS 1 TO CLASS 10K                                                                                      |

PROGRESSIVE TOOL HOOKUP

Micron MSH Tool HU

|             |                                                |
|-------------|------------------------------------------------|
| DESCRIPTION | 2,000 progressive tool hookup services for MSH |
| SCOPE       | Progressive tool hook up                       |
| CLEANROOM   | Not applicable                                 |

## Data Centre

Hyperscale and colocation, 9.6 MW to 160 MW.

CLIENT CONFIDENTIAL · 160 MW

### Hyperscale Data Centre

|             |                                                                                 |
|-------------|---------------------------------------------------------------------------------|
| DESCRIPTION | Office, data halls and mechanical utility building                              |
| SCOPE       | Construction, completion, testing & commissioning for mechanical packages 1 & 2 |
| CLEANROOM   | Not applicable                                                                  |

KUL03 PHASE 1 · 9.6 MW

### Microsoft DTC-KUL 03

|             |                                 |
|-------------|---------------------------------|
| DESCRIPTION | 9.6 MW data centre              |
| SCOPE       | PCC for CHW and CW piping works |
| CLEANROOM   | Not applicable                  |

# EV Battery · Europe

Dry rooms for the gigafactories: moisture control and contamination control at scale.

SKELLEFTEÅ, SWEDEN · 62,000 M²

## Northvolt AB Gigafactory

|             |                                                        |
|-------------|--------------------------------------------------------|
| DESCRIPTION | Europe gigafactory for lithium-ion battery manufacture |
| SCOPE       | Cleanroom and dry room architecture works              |
| CLEANROOM   | Not applicable                                         |

NORWAY · BATTERY COAST · 8,600 M²

## Morrow Batteries

|             |                                                   |
|-------------|---------------------------------------------------|
| DESCRIPTION | Norway's Battery Coast project                    |
| SCOPE       | Cleanroom and dry room architectural system, ACMV |
| CLEANROOM   | Not applicable                                    |

# Semiconductor · Europe & Morocco

Following the fabs into Europe: advanced-node cleanrooms and progressive hookup.

CLIENT CONFIDENTIAL · WAFER FAB

## 28/22nm CMOS · 16/12nm FinFET Plant

|             |                                                                      |
|-------------|----------------------------------------------------------------------|
| DESCRIPTION | Design, supply, installation & commissioning of cleanroom facilities |
| SCOPE       | Cleanroom & mechanical general contractor                            |
| CLEANROOM   | CLASS 1 TO CLASS 10K                                                 |

CASABLANCA, MOROCCO · 60,000 M²

## STMicroelectronics

|             |                                                                       |
|-------------|-----------------------------------------------------------------------|
| DESCRIPTION | Built-up area up to 60,000 m²                                         |
| SCOPE       | Cleanroom, mechanical, electrical, process utilities and hookup works |
| CLEANROOM   | ISO 5 (CLASS 100)                                                     |

# Semiconductor & Display · China

EPCC across semiconductor, display and precision manufacturing.

HANGZHOU · 23,400 M<sup>2</sup>

## Ferrotec Semiconductor

|             |                                                                          |
|-------------|--------------------------------------------------------------------------|
| DESCRIPTION | Built-up area up to 23,400 m <sup>2</sup>                                |
| SCOPE       | EPCC for cleanroom, mechanical, electrical and plumbing works and hookup |
| CLEANROOM   | ISO 4 · 5 (CLASS 10 & 100)                                               |

WUXI · 8,000 M<sup>2</sup>

## Infineon Technologies

|             |                                                                          |
|-------------|--------------------------------------------------------------------------|
| DESCRIPTION | Built-up area up to 8,000 m <sup>2</sup>                                 |
| SCOPE       | EPCC for cleanroom, mechanical, electrical and plumbing works and hookup |
| CLEANROOM   | ISO 5 (CLASS 100)                                                        |

Photovoltaics

Solar cell and module manufacturing, including toxic material and waste handling.

KULIM, MALAYSIA

First Solar Malaysia

|             |                                                                                                |
|-------------|------------------------------------------------------------------------------------------------|
| DESCRIPTION | First Solar KMW building in Kulim                                                              |
| SCOPE       | PCC for mechanical & electrical, KMW building; CSA and M&E for forming gas plant; M&E for SCO1 |

## Safety, Quality & ESG

SECTIONS 03.1 TO 03.5

- Highwire Gold safety award
- ISO 45001:2018 occupational health & safety
- 20 tons per annum carbon footprint reduction

## ESG Commitments

Three pillars, applied to operations and to every project we take on.

### E

#### Environmental Responsibility

Minimising environmental footprint through sustainable design and construction. Energy-efficient solutions and eco-friendly technologies, prioritised at design stage.

### S

#### Social Accountability

The well-being and safety of employees and communities first. A diverse, inclusive work environment and ethical labour practices.

### G

#### Corporate Governance

Transparency, accountability and ethical decision-making, with the highest standards of compliance, building trust with clients, partners and stakeholders.

## Certifications & Awards

Independently certified, and recognised as Builder of the Year 2024.

MALAYSIAN CONSTRUCTION INDUSTRY  
EXCELLENCE AWARDS

# 2024 Builder of the Year

Awarded by the Construction Industry Development Board (CIDB). Recipients are judged across company performance, project management, technical expertise, innovation, quality, safety and sustainability.

AWARDED TO

**IAQ Technology International  
Sdn Bhd**

### CERTIFICATE OF REGISTRATION

This is to certify that the management system of:

**IAQ Solutions Sdn Bhd**

Main Site: No. 9, Jalan Sungai Jeluh 32/192, Kawasan Perindustrian Kemuning, Seksyen 32, 40460 Shah Alam, Selangor Darul Ehsan, Malaysia

has been registered by Intertek as conforming to the requirements of:

**ISO 9001:2015**

The management system is applicable to:

Provision of total solutions and project management for engineering, procurement, construction and commissioning for all industries.

Certificate Number: Q90785A  
Initial Certification Date: 02 August 2023  
Date of Certification Decision: 15 May 2026  
Issuing Date: 15 May 2026  
Valid Until: 15 June 2029

Mark Thomas  
Registration President

**ISO 9001:2015**

WSH Council, Singapore

## Safety & Recognition

How our standards are independently verified and recognised.

### Judged on the things that actually matter.

MCIEA recipients are assessed by CIDB against seven criteria. They are the same ground our clients audit us on.

|                     |    |                                                                                              |    |
|---------------------|----|----------------------------------------------------------------------------------------------|----|
| Company performance | 01 | Project management                                                                           | 02 |
